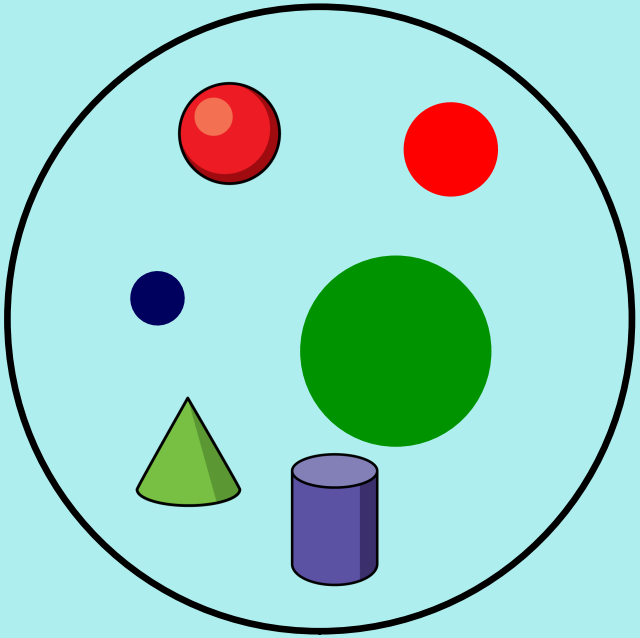
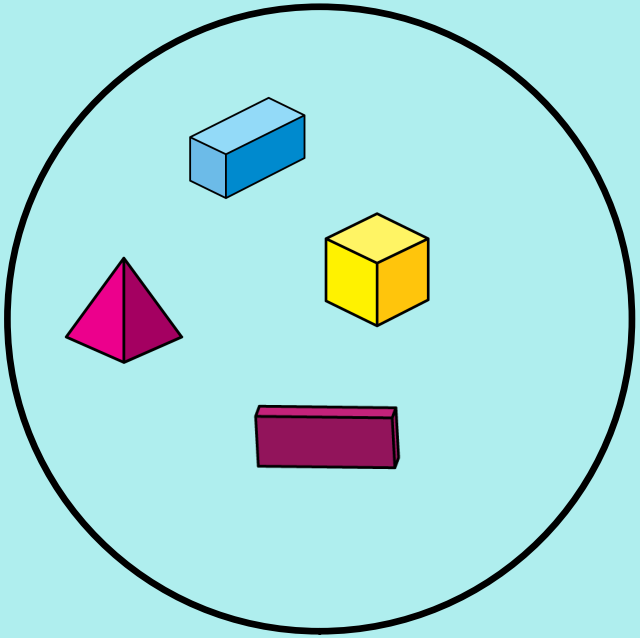
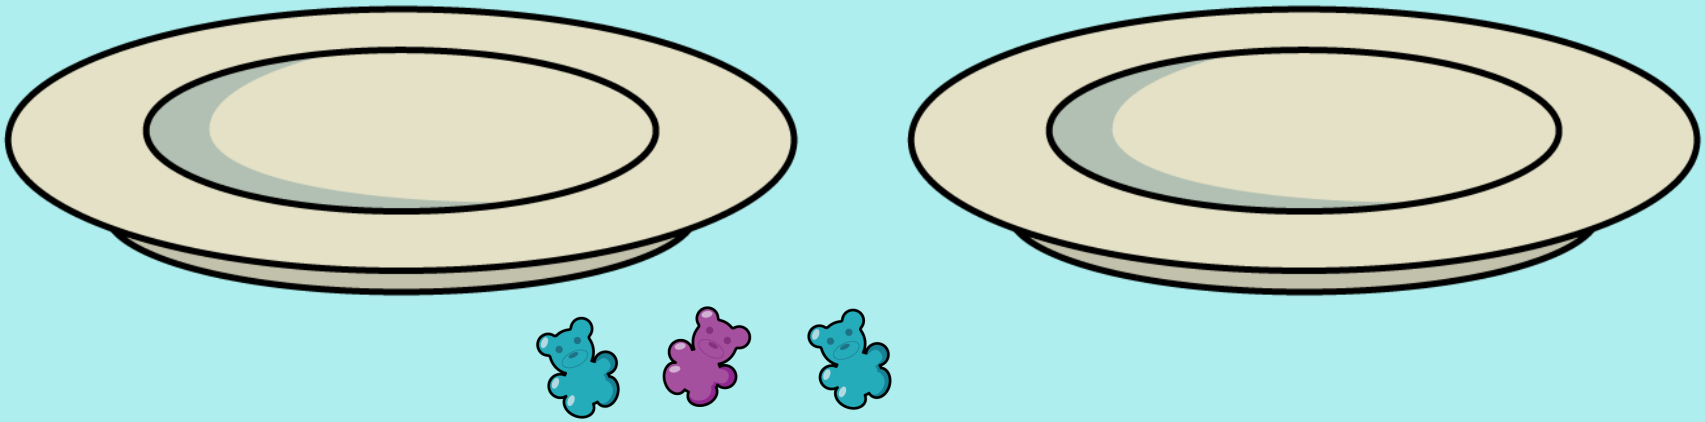
Guess my rule

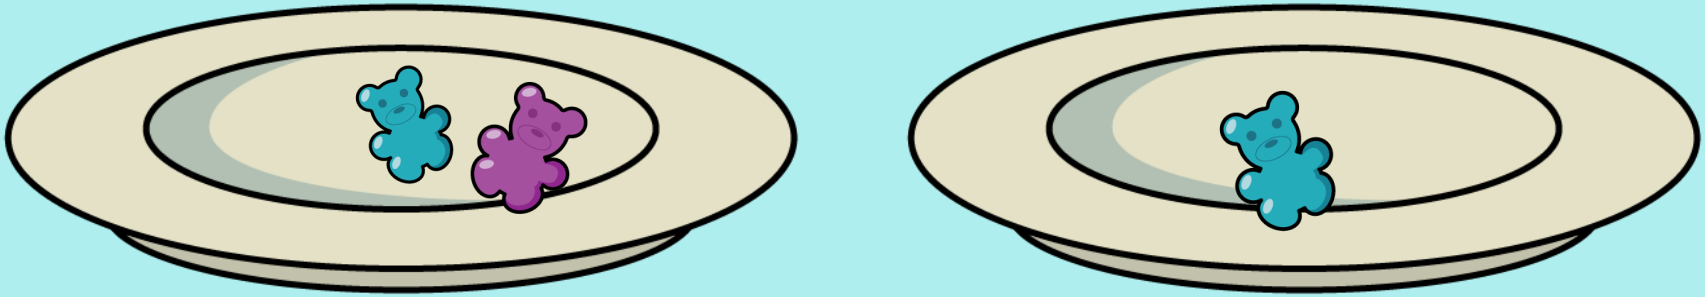


Guess my rule





Here are 2 plates for you and me. Can we share the sweet so we have the same amount?



We CAN NOT share the sweets so it is equal.

We call this an ODD amount.

Take up to 12 objects from your house. You can use spoons, pencils, lego bricks or pasta shells.

Explore amounts that can be shared so you have the same amount on 2 plates.

Which amounts are odd?
