L.O. To create a maze backdrop to use in a game

Jun 27-11:16

We are gong to make simple maze game using the arrow keys to move a sprite around.

First we need to create your maze.

On a piece of paper with your partner draw out a simple maze.

Don't make it too complicated

Jun 27-11:17

Now log into scratch

Green

username: woodpecker1609

Password: Sunflower

Blue

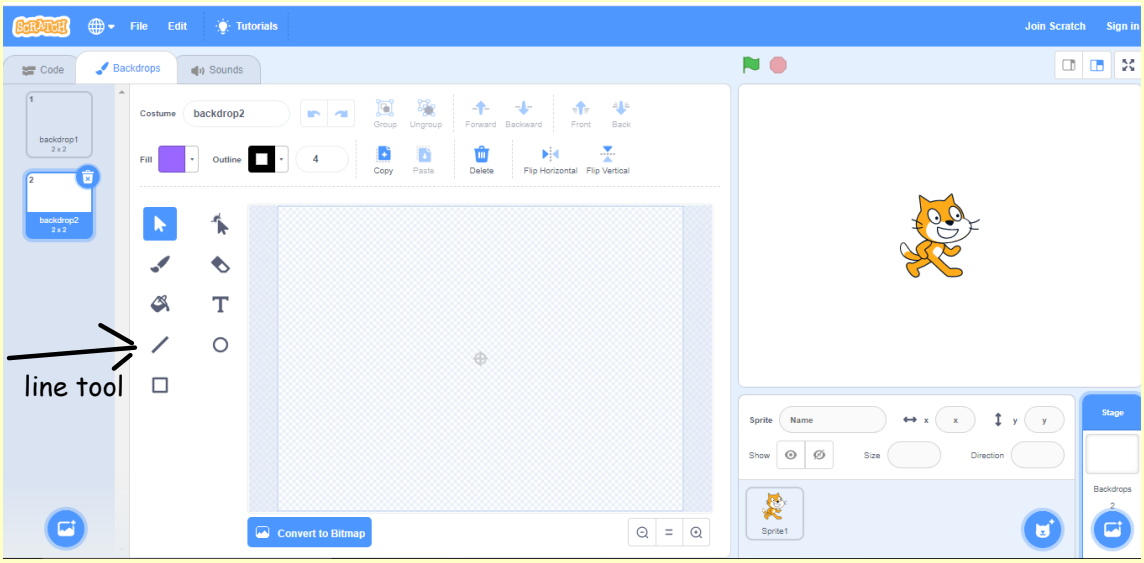

username: whale6789

password: flower

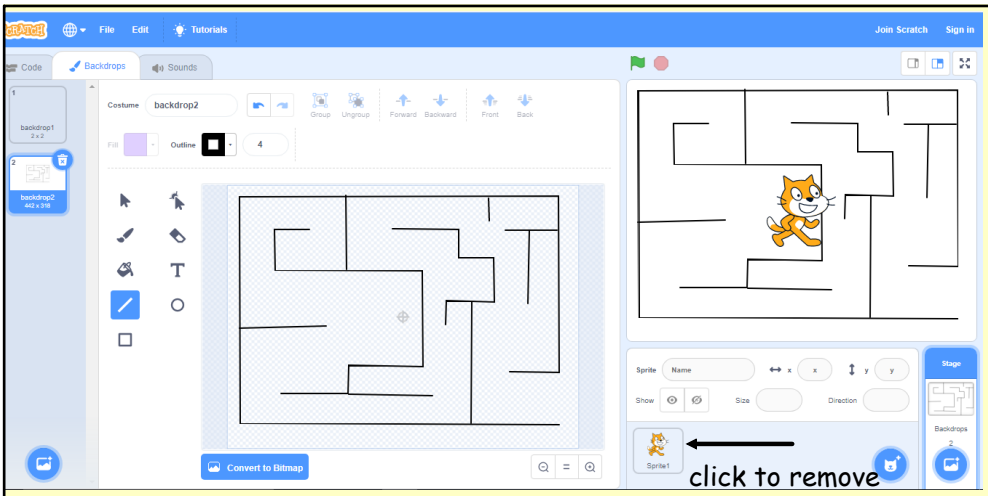

Jun 27-11:21

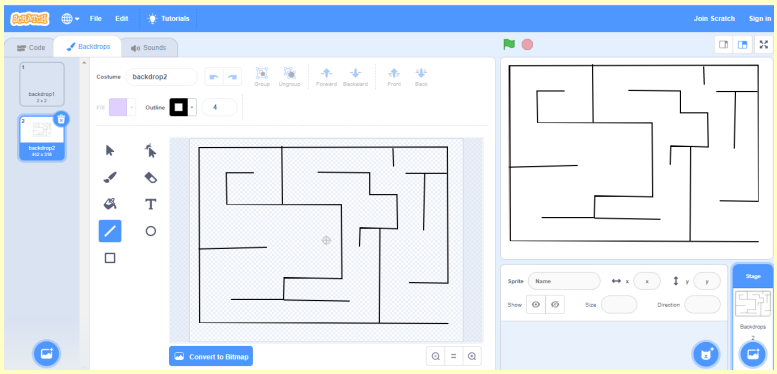

Go to the backdrops and we are going to draw our

maze using the line drawing feature 4 th one down in the left column to create your maze.

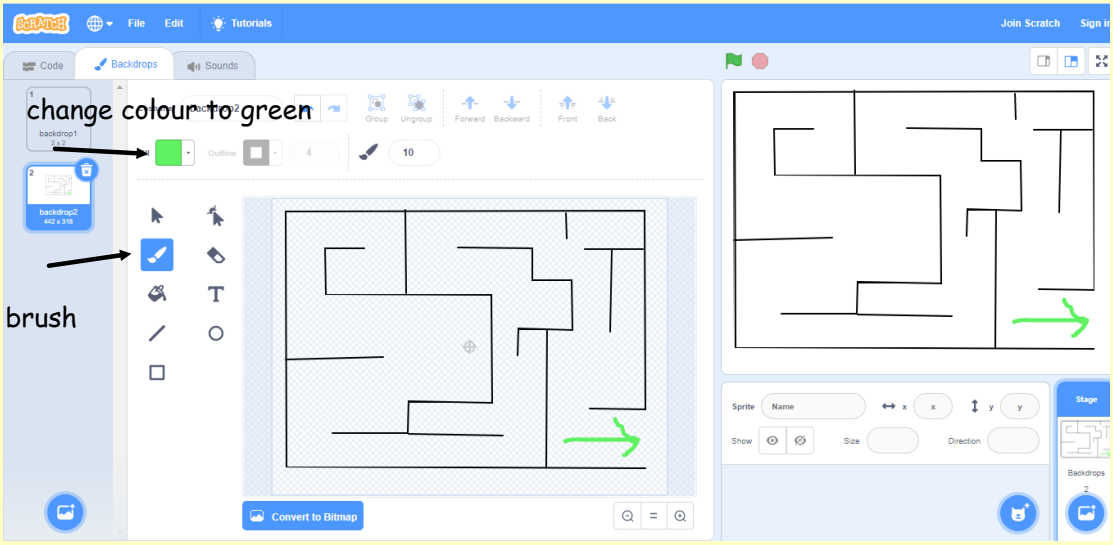

Jun 27-11:26

Jun 27-11:47

when your have finished creatng your maze use the brush feature 2nd one down in the left column and draw a green arrow at the exit point of the maze.

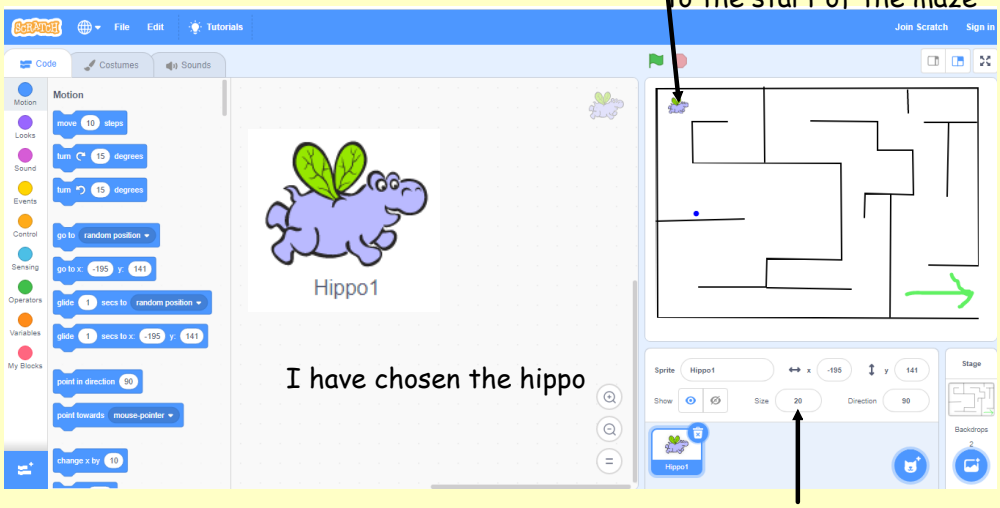

The green arrow helps scratch detect when the player has solved he maze and will display a win message

Jun 27-11:23

Next choose the sprite you would want to use

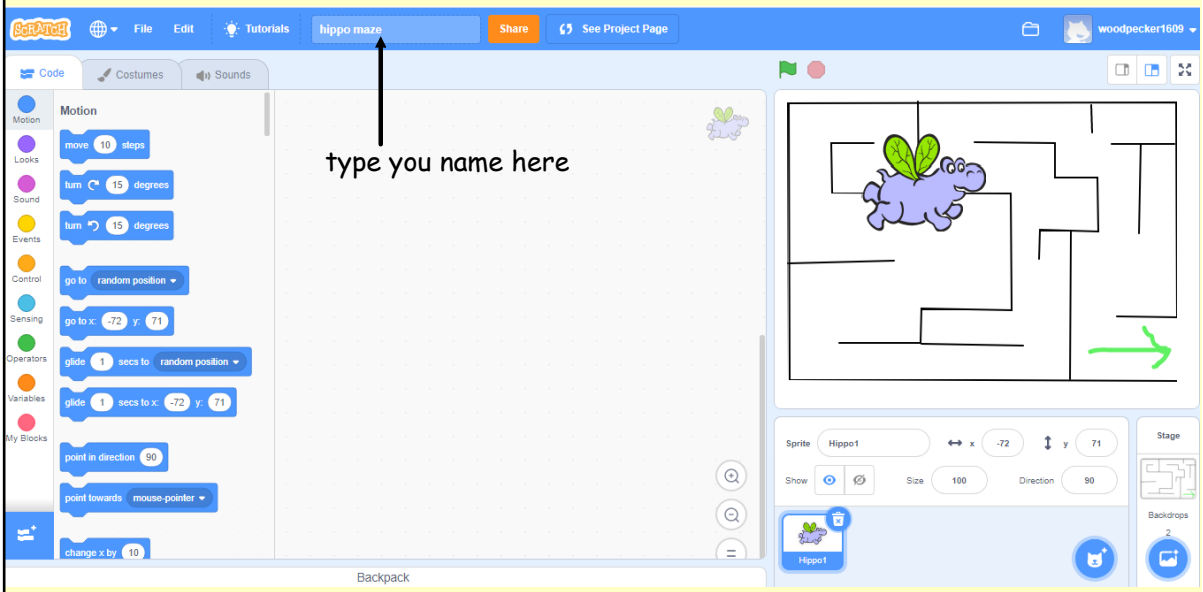

You will need to change the size of the sprite to fit the maze. Try changing it to 20

Jun 27-11:35

Now save your maze to projects

make sure you give you maze a name in the bar at the to of the screen

Jun 27-12:04
