

9.11.2020

MOS: 2 X tables

LO: To subtract (2d-tens)

1	2	3	4	5	6	7	8	9	10										
11	12	13	14	15	16	17	18	19	20										
21	22	23	24	25	26	27	28	29	30										
31	32	33	34	35	36	37	38	39	40										
41	42	43	44	45	46	47	48	49	50										
51	52	53	54	55	56	57	58	59	60										
61	62	63	64	65	66	67	68	69	70										
71	72	73	74	75	76	77	78	79	80										
81	82	83	84	85	86	87	88	89	90										
91	92	93	94	95	96	97	98	99	100										

- 10

TTYP: What happens when we add and subtract 10?

44
54

4 4

$$32 - 10 = 22$$

tens

ones

2

2

$$67 - 30 =$$

$$55 - 20 = 35$$

1b. Complete the calculation.

$$54 - 20 =$$

6a. Choose the correct answer from the options below to complete the Base 10 calculation.

- 46
- 66
- 16

$$46 - 30 =$$

3b. Add the remaining Base 10 to make this calculation correct.

	-		=	
---	---	---	---	---

Try these questions on your whiteboard

$$55 - 20 =$$

$$36 - 10 =$$

$$74 - 50 =$$

Challenge

2b. Ivan is given a problem:

I have 22 blueberries and eat 10.

	T	O
—	● ●	● ●
	●	● ●

He shows his calculation using a place value chart.

Is he correct? Explain why.
