

L.O. To create a
portfolio of
photographs

Last week we used our plans to take our photographs.

Now we have printed them out we are going to make our portfolio of work.

First, either put your photographs in the order so they tell a story or chose the best 4 or 5 that tell the story

arrange them on you paper and glue them down.

Now you need to come up
with a title for your story
and a sentence or two for
each picture

Add these to you
portfolio

We will be
presenting these
to each other
next week
