L.O. I can explain where money comes from

Talk to your talk partner

Why do we need money?

Where does money come from?

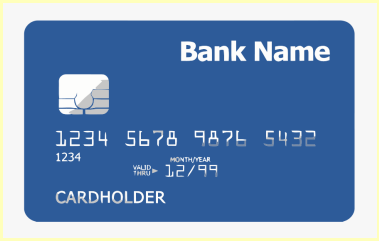

How do people get money?

Can you time of when you last used money to pay for something ? What was it?

How many ways can you think of that you can pay for something?

What jobs do you think these people do why?

What other jobs do you know?

You have 1 minute!

Think of jobs people in your family or your friends do.

Key words

Job - a position of employment

Employment - if you are employed this means you have a job.

Wages - money you get paid to do your job. This is normally a set amount for a certain period of time.

Salary - the amount you earn from your job over a year.

When people have jobs they get paid money. This will be paid to them on a certain date, sometimes each week but usually at the end of a month. The money people get for doing a job is called their wages. If they have a job, they are 'employed'.

In Pairs

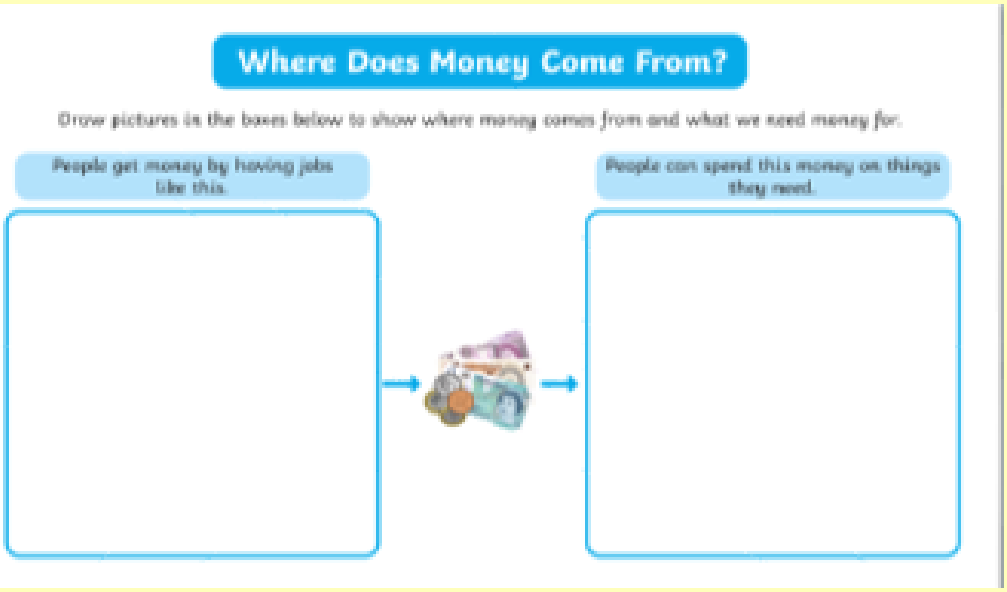

Using your Job Picture Cards, you are going to create a role play of one of the jobs for the rest of the class to guess. Look carefully at the card to think about how to best act out what the person doing this job might look like

Now, watch the role plays carefully

Can you guess what jobs they are showing us?

If you guessed correctly, give them their wages to pay them for their hard work!

Chooses 1 job you saw in the role plays.
