L.O. To plan a research activity

In pairs you are going to plan a research activity using the Internet.

First, we need to decide what we are going to research.

We are in our pairs going to choose an animal that you would like to find more out about.

Once you have decided, in your pairs, which animal you are going to research. You need to come up with a list of things you would like to know about your chosen animal.

Think about .....

What -

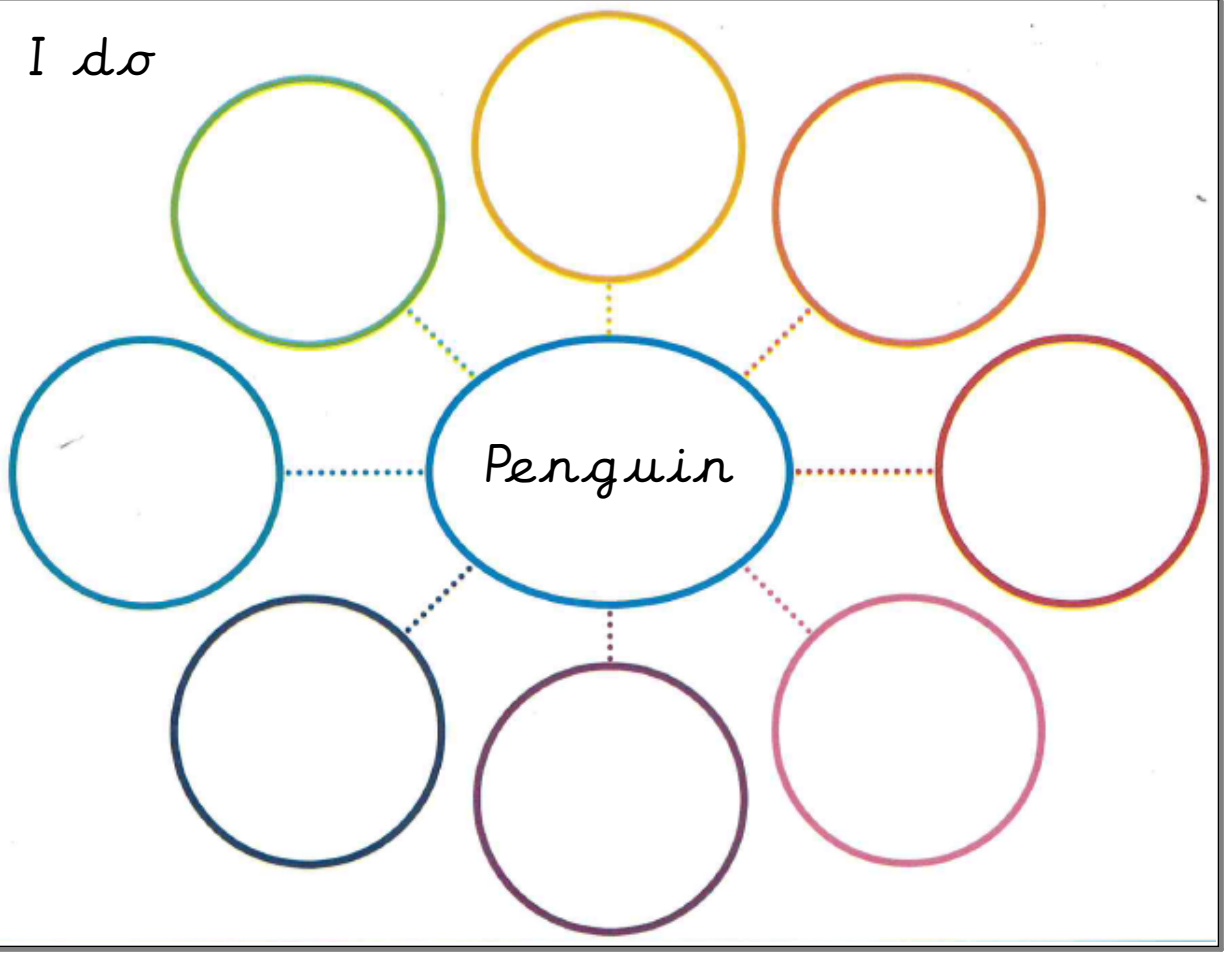

When -

Why -

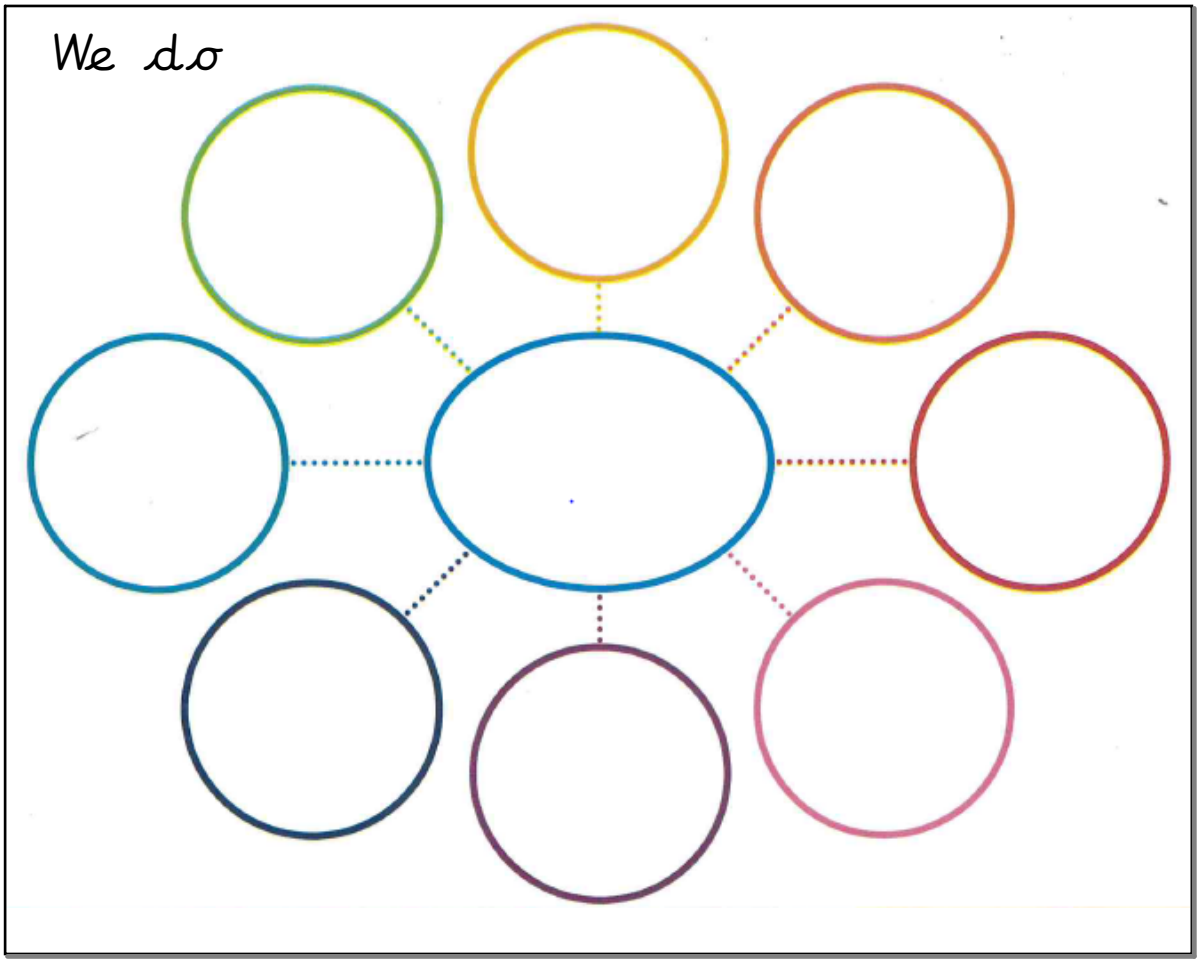

Where -

How -

I do

We do

You do

So now its your turn!

- In your pairs agree on an animal

- Use the how, what, why, where when

words to help you write your questions for your research
