L.O. To be able to use safe search to find information

How could you find out about a topic?

teachers newspapers magazines
family friends Internet books
library television

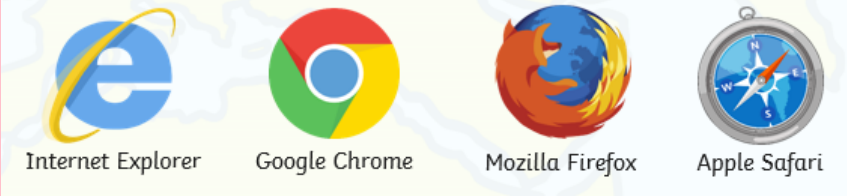

What is the Internet?

The Internet is a collection of computers and other devices that are connected across the world

The world wide web is part of the Internet.

It is a collection of information that is presented as web pages in an application called a browser.
The most common browsers are:

Search for the word animals in one of the main search engines.

What are the first three results(excluding adverts at the top)?

What are the important words or images can you see?

What should you do if you find something that makes you feel uncomfortable on the Internet?

We are going to carry on researching the animals that we wrote our questions about last week.

We are going to use two different search engines.

We are going to write down any important information or draw any pictures.

KidRex
www.kidrex.org

Do you notices any differences between the search engines?

I do

Q. where do penguins live?

https://www.treehugger.com/places-see-penguins-in-the-wild-4858671

We do

Q. What do penguins eat?

Remember :

look for key words

DO NOT COPY OUT WHOLE PARAGRAPHS
