L.O. To be able to use safe search to find information

Talk partners

How could you find out about a topic?

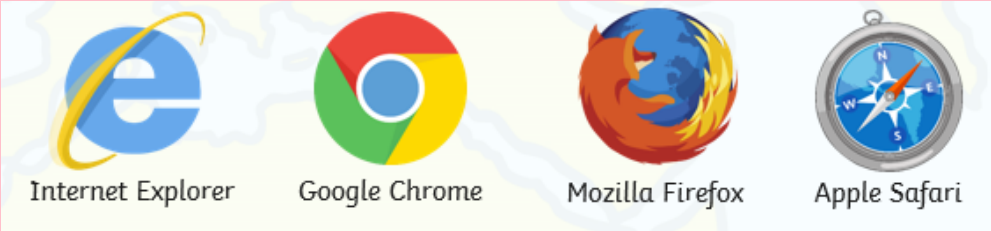

teachers newspapers magazines
family friends Internet books
library television

The Internet is a collection of computers and other devices that are connected across the world

the world wide web is part of the internet.

It is a collection of information that is presented as web pages in an application called a browser. The most common browsers are:

Search for the words sea travel in one of the main search engines.

What are the first three results (excluding adverts at the top)?

What are the important words or images can you see?

What should you do if you find something that makes you feel uncomfortable on the Internet?

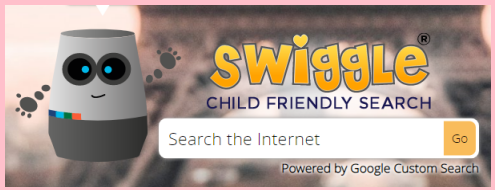

We are going to research Captain Cook.

We are going to use two different search engines.

Record the first 3 results you find on each search engine not adverts.

Write down any important information or draw any pictures.

KidRex
www.kidrex.org

Do you notices any differences between the search engines?

What facts have you found out?
