LO: to plan a story about an animal's migration journey

Where have we researched?

Which countries?

What have we learnt about Antarctica?

What animal migrates there?

Why do they migrate?

Where do they set off from?

We are going to plan a story using our *Good Example* and our knowledge of migrations.

You need to be able to answer these questions:

I do

Where is your animal migrating to?

What is the animal?

Why is it migrating?

How is it travelling?

Where does it start?

What problems might happen on the journey?

You do

Where is your animal migrating to? (Africa / North America)

What is the animal?

Why is it migrating?

How is it travelling?

Where does it start?

What problems might happen on the journey?

What is the animal?

You do

Africa

- wildebeest
- bat
- pilchard
- swallow
- elephant

North America

- caribou
- salmon
- crane
- butterfly
- hummingbird

You do

Where is your animal migrating to? (Africa / North America)

What is the animal?

Why is it migrating?

How is it travelling?

Where does it start?

What problems might happen on the journey?
