Who / What is it about?

What is the person / object doing?

Is this a complete thought?

The plastic was flexible.

Who / What is it about?

What is the person / object doing?

What does this sentence tell me?

The plastic went into the ocean
and it harmed the animals.

What does this sentence tell me?

Plastic is not biodegradable but it can be recycled.

Simple or Compound

How can we tell the difference?

Simple - *tells me one thing*

Compound - *tells me two or more things*

I do

Can we write a simple sentence using
this fact?

paper - books

I do

Can we write a compound sentence
using this fact?

Paper - books

We do

Write a simple and then a compound sentence for this fact.

paper - recycled

Paper can be recycled because it is made from wood.

Paper can be recycled so we can make new things.

Paper can be recycled so it doesn't hurt the animals.

You do

Write a simple and then a compound sentence for these facts.

paper - biodegradable

Paper - uses

Paper - made from
