

Starter

On your white boards match the sums that make the same totals

$$5 + 3$$

$$9 + 5$$

$$7 + 5$$

$$2 + 7$$

$$8 + 6$$

$$5 + 4$$

$$4 + 4$$

$$6 + 6$$

LO: To compare number sentences

I do/We do

Complete the part whole models

You do

4a. Complete the part whole models.

I do/We do

Choose the correct calculation to complete the statements.

1. $16 - 9 >$

2. $16 - 7 <$

3. $16 + 4 =$

A. $15 + 5$

B. $16 - 10$

C. $17 - 7$

You do

5a. Choose the correct calculation to complete the statements.

1. $15 - 9 > \square$

2. $15 + 2 = \square$

3. $14 + 3 < \square$

A. $14 + 3$

B. $15 - 10$

C. $14 + 4$

I do/We do

Tick the statements that are true. Correct those that are false.

A. $5 + 11$ ☐ $<$ $5 + 12$

B. $13 - 9$ ☐ $=$ $14 - 9$

C. $12 + 3$ ☐ $<$ $12 + 2$

D. $15 - 5$ ☐ $=$ $16 - 6$

You do

6b. Tick the statements that are true.
Correct those that are false.

A. $9 + 8$ ☐ $>$ $8 + 9$

B. $9 + 9$ ☐ $<$ $19 - 9$

C. $12 - 5$ ☐ $=$ $13 - 6$

D. $12 - 5$ ☐ $=$ $11 - 4$

I do/We do

Problem solving

These digit cards have been placed incorrectly. Rearrange them to make the statement correct

$$\boxed{5} + \boxed{9} > \boxed{4} + \boxed{10}$$

You do

Problem solving

6a. These cards have been placed in the wrong order. Rearrange the digit cards to make the statement correct.

$$\boxed{6} + \boxed{5} > \boxed{7} + \boxed{4}$$

I do/We do

Reasoning

Zahra says,

$$2 + 16 = 3 + 16$$

Is she correct? Convince me.

Zahra is _____ because

You do

Reasoning

5b. Ishmail has written this calculation in his book:

$$16 - 5 < 17 - 5$$

Is he correct? Convince me.
