PSHE Tuesday

This term we will be exploring...

How can the media influence people?

RECAP WITH YOUR PARTNER:

What is a mixed message in the media?

How can these influence people's opinions and decisions?

LO: to explain how text and images can be manipulated or invented.

talk

Thinking Together: What do you think of these images?

L O: to explain how text and images can be manipulated or invented.

These images are fake: they have been edited with software.

Manipulated = alter or present so as to mislead.

PSHE Tuesday

LO: to explain how text and images can be manipulated or invented.

Photo editing software is often used to create fun, interesting pictures that we wouldn't be able to see without this amazing technology.
Sometimes, however, we might not realise that the photos we are looking at have been edited...

LO: to explain how text and images can be manipulated or invented.

we do

If you saw this photo online, you might think it was real.....

...but this is the original photo. Can you spot what has changed?

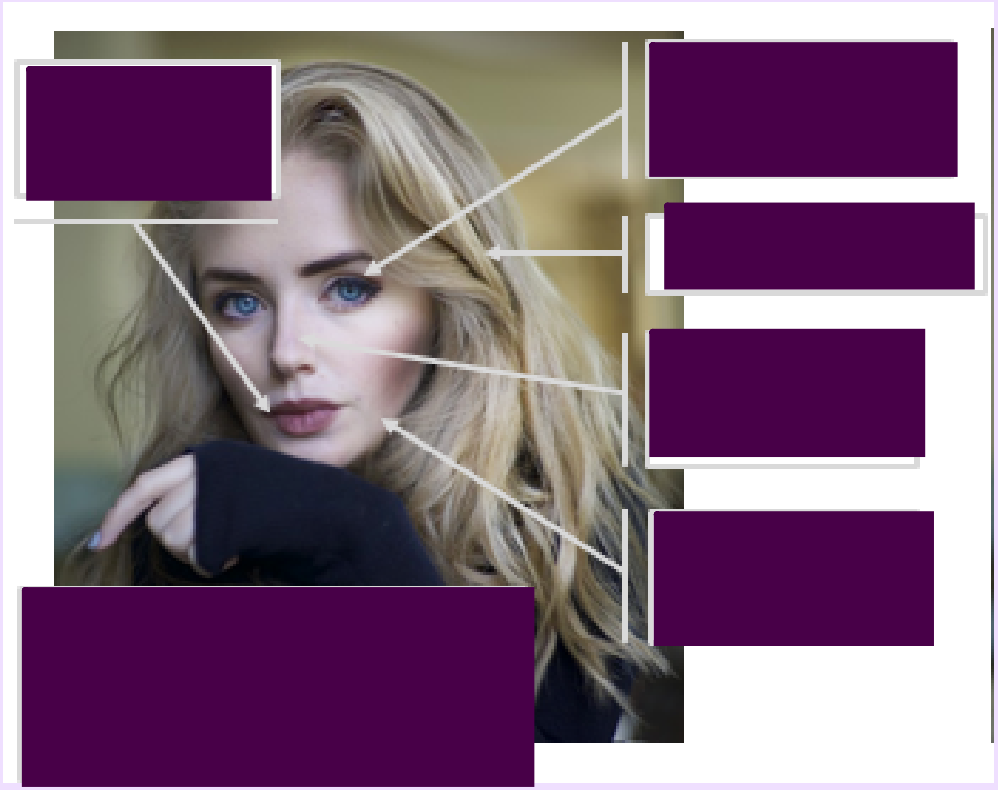

PSHE Tuesday

we do

What edits did you spot?

LO: to explain how text and images can be manipulated or invented.

We can do all of these things on apps or software on our own computers. Lots of social media apps allow you to edit photos before posting them online.

- cropping
- adding filters
- recolouring
- change the shape of a body
- adding parts
- smoothing out surfaces - including skin)

LO: to explain how text and images can be manipulated or invented.

There are some tell-tale signs that we can look for to tell if a photo has been invented or edited:

1. The background appears warped or manipulated.

I do

What has been edited in this photo? Watch how I annotate the edits.

PSHE Tuesday

What has been edited in this photo? Let's annotate the edits together.

we do

you do

Look at the different photos. Annotate what has been edited on each one, with your partner

Once you have finished, answer these questions (on the back of the sheet).

1. How can it feel to see 'perfect' people in photographs?
2. Is it realistic to try and look like those photos? Why?
3. Why do you think photos are edited by advertisers?
4. Why do you think people sometimes edit the photos of themselves that they post on social media?

we do

Let's discuss our answers:

1. How can it feel to see 'perfect' people in photographs?
2. Is it realistic to try and look like those photos? Why?
3. Why do you think photos are edited by advertisers?
4. Why do you think people sometimes edit the photos of themselves that they post on social media?
