Create a fact file about the bioluminescence sharks

Bioluminescence sharks

Scientists from Belgium and New Zealand have discovered three species of shark who emit light (bioluminescence)

I do

LO: To identify the key ideas from the text

Bioluminescence sharks

Scientists from (a)_____ and (b)_____ have discovered three species of shark who emit light ((c)_____)

we do

It is the (a)_____ time it has been discovered in such a large (b)_____ of shark, usually it is found in smaller marine animals and insects such as (c)_____

LO: To identify the key ideas from the text

Bioluminescence sharks

I do

Scientists from Belgium and New Zealand have discovered three species of shark who emit light (bioluminescence)

we do

It is the (a)_____ time it has been discovered in such a large (b)_____ of shark, usually it is found in smaller marine animals and insects such as (c)_____

you do

The three species of shark live in the (a) _____ and used bioluminescence to (b)_____ themselves.

LO: To identify the key ideas from the text

we do

Thinking Together:

Why is this discovery so important to scientists?
