Quick guide: How to survive the Nazis.

There are many ways to survive a war against Nazi soldiers- some are more successful than others!

First, you could venture out on your own. Although this is difficult to do (especially if you end up collecting people on the way) it does have benefits. These include: not sharing food or drink, making a plan and sticking to it and never have to hide more than one person.
However, there are many downsides to this tactic such as being lonely, talking to yourself and having no-one to help you if you get lost.

Another tried and tested method is to associate yourself with a small group of like-minded people. An adult being a part of this group is preferable as a small group of children can easily get into trouble. In this group you should have a range of skills- story-telling, dentistry and cooking are high on the list of priorities unless you are a very small child in which case you should be skilled at crying quietly.

Unfortunately the options are very limited when surviving a war; only the luckiest will make it.
