Starter

Measure the following angles

Billy is asked to draw an angle of 30 degrees.

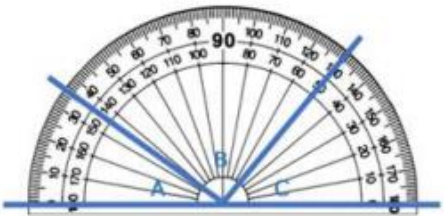

What mistake has Billy made?

Draw the following angles:

- 40°
- 167°
- 32°
- 240°

Work out the size of each angle.

Explain how you found your answers.

Kirsty says,

When you double the size of an acute angle, you always get an obtuse angle.

Explain why Kirsty is **not** correct.
