Starter

Write one fact for each of these angles

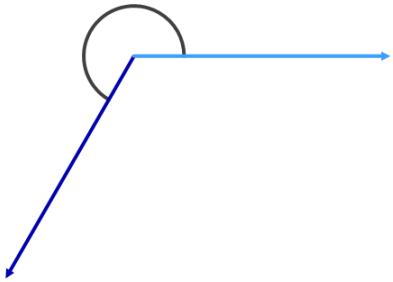

If you finish...

Mrs Freibach has measured two angles. One measures at 50° and the other measures 120°. She is unsure which is the acute angle and which is the obtuse angle. Can you help Mrs Freibach and explain how you know.

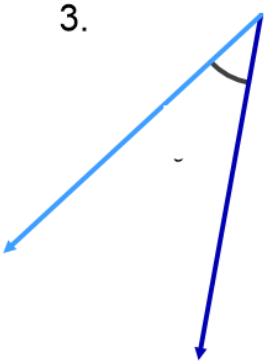

1.

2.

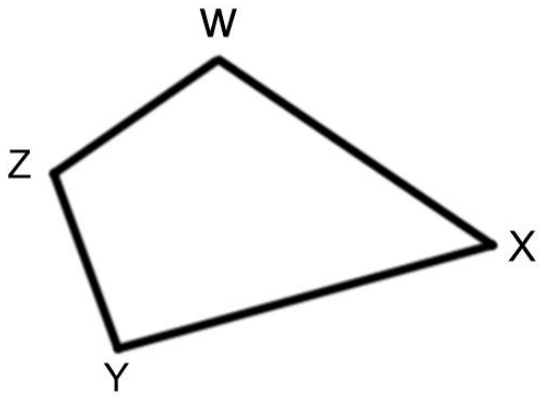

3.

	Estimate	Measurement	Angle

Z:

Draw a 60° angle	Draw a 110°angle

Always, sometimes or never true?

- Half an obtuse angle is an acute angle.
- 180° is an obtuse angle
