PSHE

This term we will be exploring...

How can the media influence people?

RECAP WITH YOUR PARTNER:

How do we spot fake news?

What are the negative consequences of fake news?

PSHE

LO: to recognise unsafe or suspicious content online and what to do about it.

we do

Thinking Together

If someone you didn't know asked you these questions before you bought something or used something, would you just answer?

LO: to recognise unsafe or suspicious content online and what to do about it.

talk

Thinking Together

With your partner, list all the different websites that you access. Put them under these headings:

By Myself	With an Adult at Home	At School
Social Media	Shopping	Research
Video Streaming	Homework Research	Design Websites
Online Games		
Homework Research		

LO: to recognise unsafe or suspicious content online and what to do about it.

Thinking Together

Think about the websites you have just listed. What kind of information do you give to them when you sign up or need to access them?

Social Media?	Full Name?
	Address?
Online Shopping?	Birthday?
	An adult's bank details?
Gaming?	School?
	Email address?
Research?	Phone Number?

Thinking Together

How do you know the site you are putting your details into is safe, even if you're with an adult?

What could happen if you gave those details to an unsecure or even fraudulent website?

I do If a site is secure it means that any information you put into it is safe: it can't be seen by anyone else. There are some simple clues you can look for to tell you a website is safe:

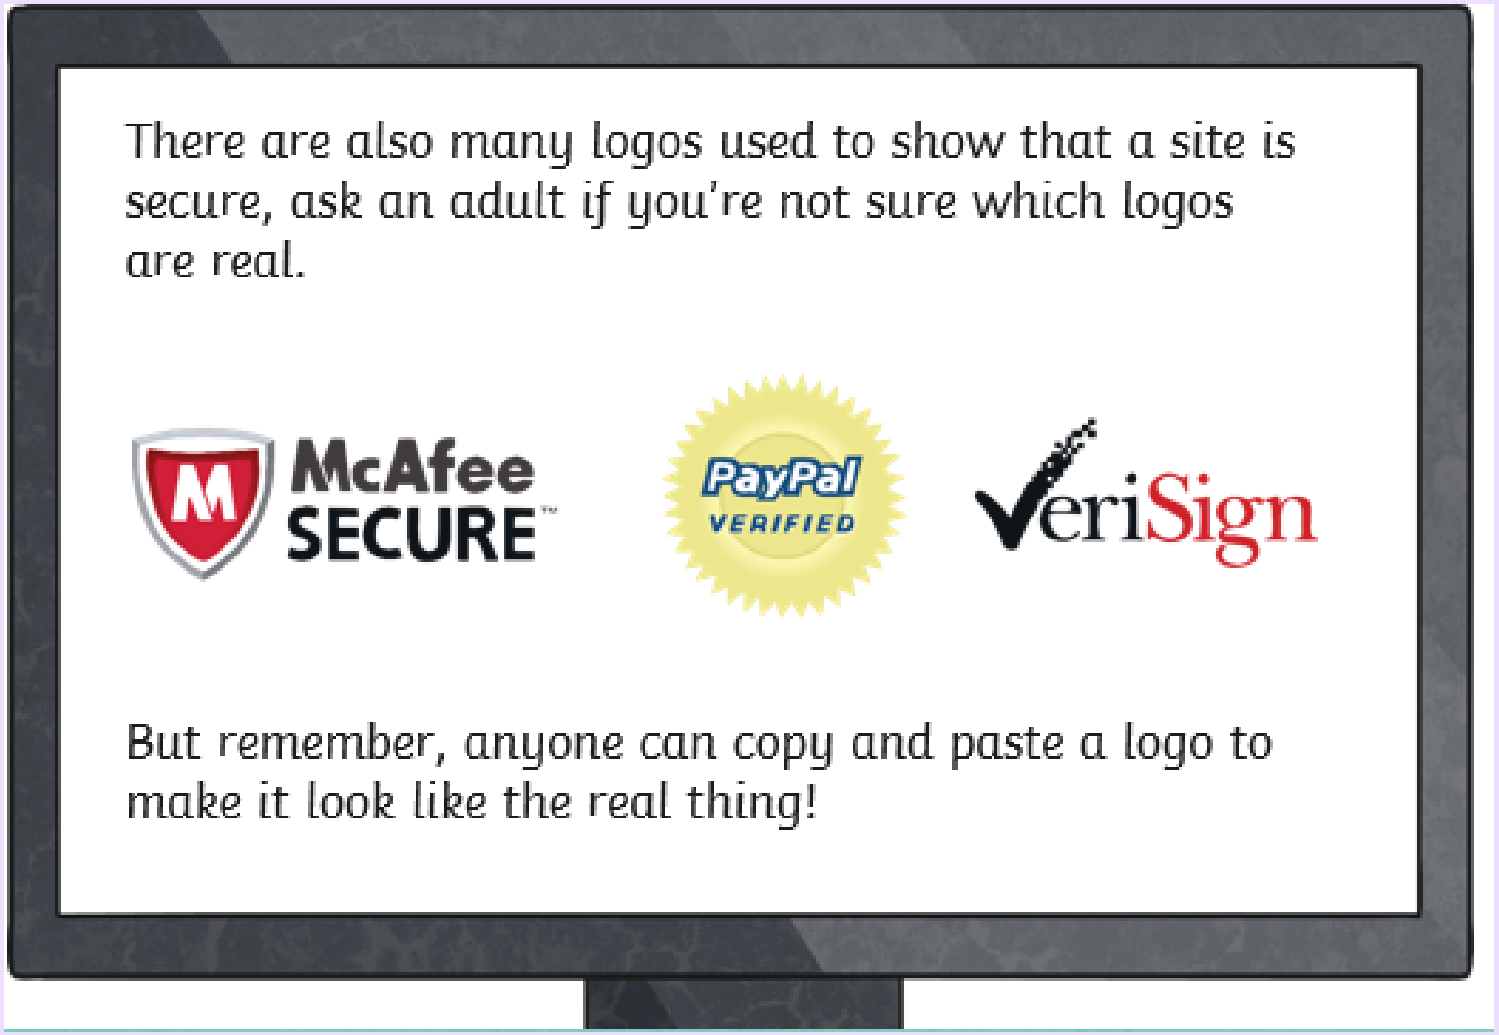

I do If a site is secure it means that any information you put into it is safe: it can't be seen by anyone else. There are some simple clues you can look for to tell you a website is safe:

Look in the address bar. Some browsers will show a padlock symbol to show that the site is secure.

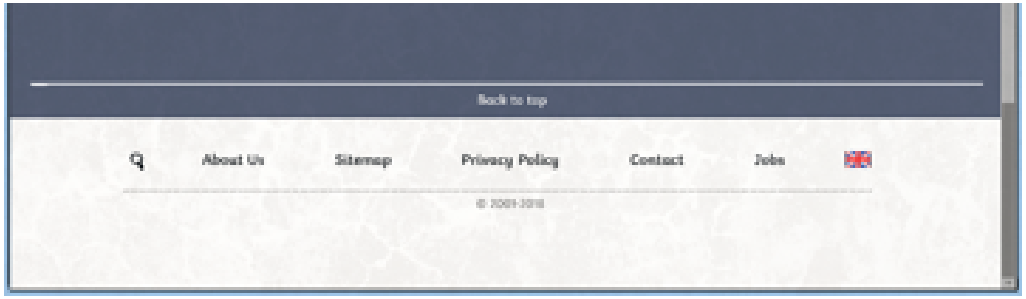

The address bar may show up as green for a secure site too.

Lots of websites will have a **privacy policy**.
You will usually find these at the bottom of a website, they are legal documents which tell you exactly how your information is used.

If you are ever worried about that a site might not be secure, an adult could help you find out by looking at this document.

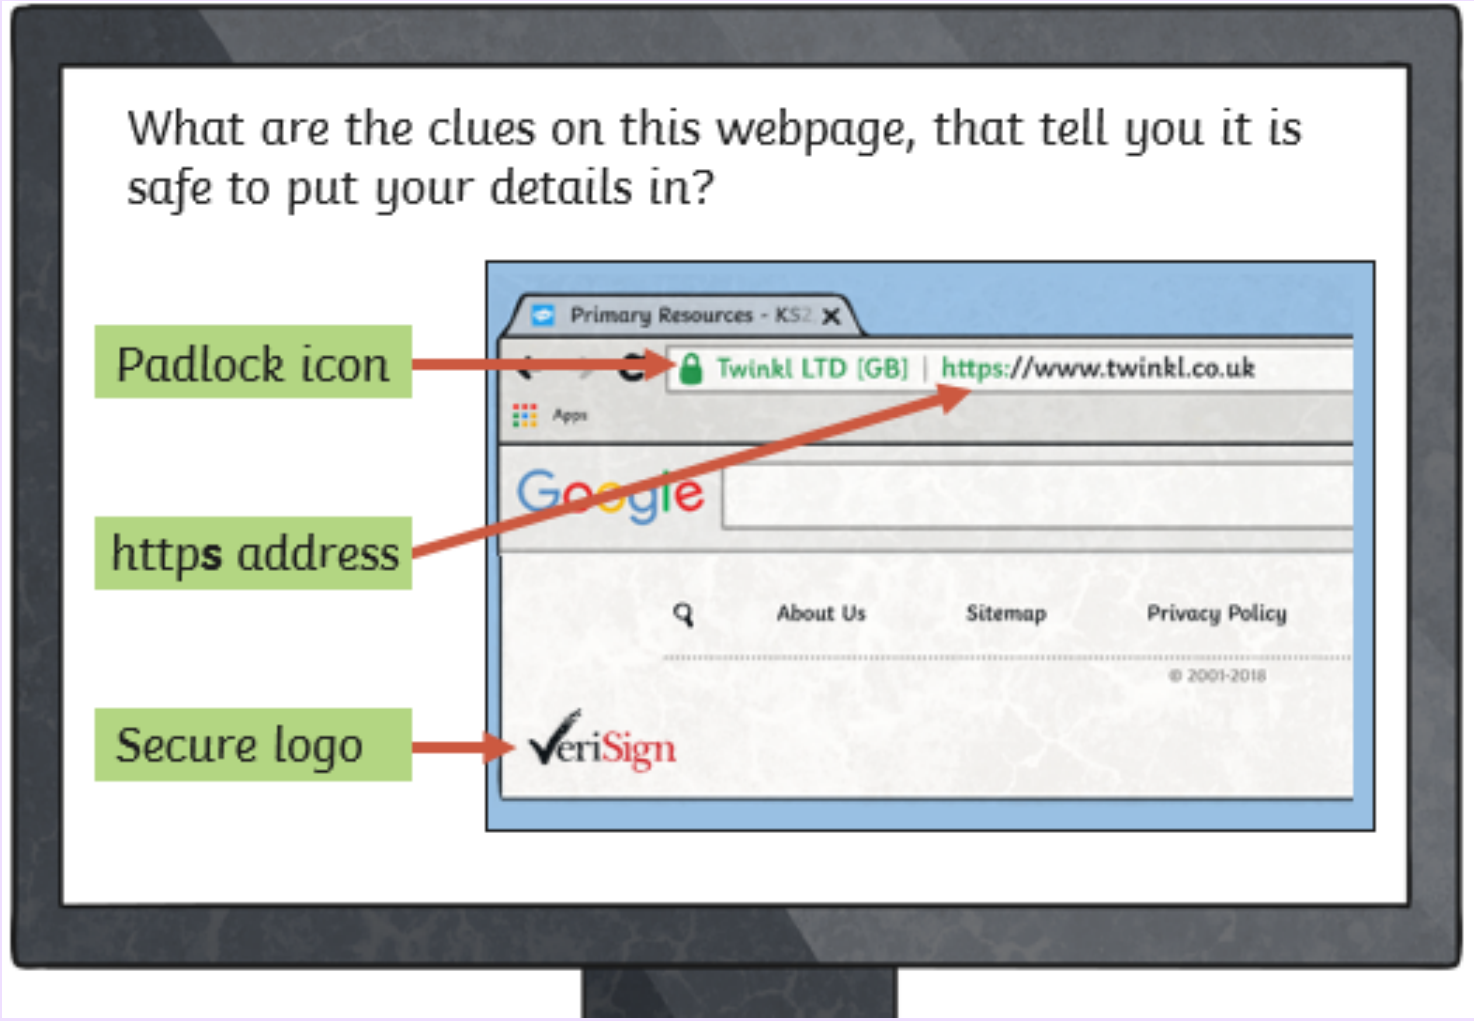

What are the clues on this webpage, that tell you it is safe to put your details in?
