Friday

Play " I count- you count" with a grown up
(when you point at you, you count, when you point at your grown up, they count)

Apr 8-20:43

Play outside- draw some hoops on the ground, or use rope or ribbon to make circles.

Practise sharing objects between the circles you have made. Remember the circles need to have the same number of objects in them.

Apr 8-20:46

Here are 10 objects.

Can you share 10 objects into 2 groups?

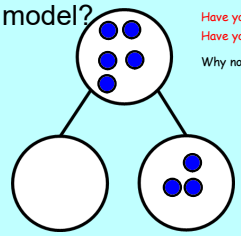

5 groups?

3 groups?

Why can't we share them into 3 groups easily?

Apr 8-20:46

Can you write the missing number in the part whole model?

Have you shared the objects equally?
Have you got half?

Why not?

Apr 8-20:46
