L.O: To fluently read a text to show understanding.

altitude- the height of a thing above sea level

aviation - the act of flying airplanes

aviatrix- a woman who flies an aircraft

circumnavigate- to go entirely around

distinguished - to tell apart

extensive - extending very far

inhabited - to live in

postulates - to assume something is true

speculations - guessing about something

Paired read the text.

Look at these questions before you read.

- Where did she first become interested in flying?
- When did she ride in her first airplane?
- What date was her last flight?

L.O: To highlight evidence in the text to explore a character.

Read through the text again.

Highlight in the text where it describes Amelia.

This could be:

- An action
- Physical description
- Description of her personality

*Amelia Earhart was an American aviation pioneer and the first female aviator to fly solo across the Atlantic Ocean. She received the U.S. Distinguished Flying Cross for this record and set many other records as well as becoming a best-selling author. She disappeared flying over the central Pacific Ocean on July 2, 1937, and was never found.*

I do

*On July 24, 1897, Amelia Earhart was born in Atchison, Kansas, to Amelia "Amy" Otis and Edwin Earhart. Young Amelia spent most of her childhood with her maternal grandparents. Amelia had a hard time making friends but showed an interest in science and sports.*
