

Thursday 8th December 2020

L.O: To fluently read a text to show understanding.

distributed - to divide into parts

drag - to fall behind

physicist - a scientist who works with physics

thrust - to push or drive with force

A-380 airplane

Cessna 172

Read the text in pairs.

Think about the following questions whilst you are reading.

- What 3 elements are needed for a plane to fly?
- What is drag?
- What is the purpose of a plane wing?

Friday 9th December 2020

L.O: To write key notes about the text.

Scan over the text.

What do you notice about the text?

How is it organised?

What type of text do you think this will be? How do you know?

*In pairs read the text.*

*Partner 2 to hold the ruler and read first!*

I do - I am going to write key notes about paragraph 1.

We do - Write key notes about paragraph 2.

You do - Write key notes rest of text.
