English - biography

LO: To organise information into paragraphs.

Starter

**Which sentence is written
in standard English?**

Jacob were really excited for Christmas Day.

The elves would of been tired after making all those toys.

It were really good when it started to snow.

The reindeer were busy practising their
flying in preparation for Christmas Eve.

I am going to model how to write the introduction to a biography.

I
do

First, I need to choose the appropriate note cards from our working wall and put them into the correct order.

Then, I need to write a paragraph opener. This should introduce what my paragraph is about.

Now, I will turn each card into a complete sentence and begin to build my paragraph.

Finally, I can decide whether I need a second paragraph and where the break between paragraphs may come. My final sentence should summarise what the paragraph has been about.

Now, with your partners you will work together to write the next paragraph/section.

First, help me choose the correct note cards and put these into the appropriate order.
We need about 3-4 notes per paragraph.

Now, you and your partner can write a paragraph opener on your whiteboard. Then, you can turn our remaining notes into complete sentences.

After 10 minutes, we will share our paragraphs.

Early Life

We
do

Now, using both your notes and the class notes (working wall) write a first draft of the introductory paragraph to your biography. Don't forget, you will need to turn your notes into complete sentences.

You
do

- Subheading
- Opening Sentence.
- Complete sentences - add extra detail.
- Correct use of capital letters and punctuation.
