LO: To identify the 'big idea' of each paragraph.

Thursday 6th May 2021
I went to write a story about a description.

Excited Ali rushed to the market to save the campfire. For many, the market was only a short distance away from the campfire place. He soon passed the small hill which was at the city entrance. He was playing a game of tag with the other boys. The market was busy with many people. He made his way to the market.

As he looked at the sun, he saw a hole in the ground. A hole box of stones was over. Even, the stones were so big that they could be used to build a house. He saw a boy, who was looking at the sun. He saw a boy, who was looking at the sun. He saw a boy, who was looking at the sun.
