Tuesday

Can you count to 20?

Represent the numbers below using bunny ears:

4

6

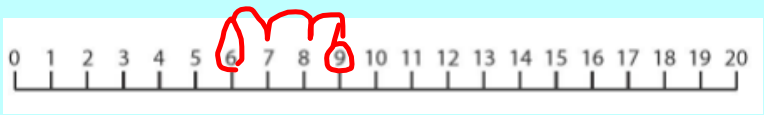

7

3

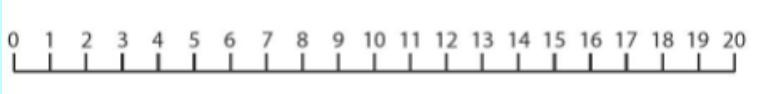

LO: To add using a number line.

6 + 3= 9

When we add on a number line we circle the first number in our number sentence. Then we do the correct amount of jumps. We circle the number we land on and write the answer.

Can you solve the number sentences below using a number line?

5 + 4 =

8 + 5 =

9 + 3 =

Challenge: Can you write your own number sentence and solve it using a number line?
