L.O: To compare the life cycle of an insect and an amphibian.

Stick in and complete your starter.

Partner 1 - Read through the 'Life Cycle of an Insect' text.

Partner 2 - Read through the 'Life Cycle of an Amphibian' text.

Both highlight the key information as you are reading.

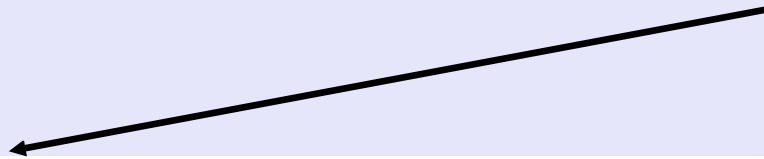

Partner 1 feedback your key points to partner 2.

Then Partner 2 feedback to partner 1.

Do you notice any similarities?

Do you notice any differences?

I do

Life cycle of an insect - What is different?	Life cycle of an amphibian - What is different?
Life cycle of an insect AND an amphibian - What do they have in common?	

With a partner find one point to fill in, in the second and third section.

We do

Life cycle of an insect - What is different?	Life cycle of an amphibian - What is different?
Life cycle of an insect AND an amphibian - What do they have in common?	

You do

Complete the full grid. I would like to see at least 3 examples in each section.

Life cycle of an insect - What is different?	Life cycle of an amphibian - What is different?
Life cycle of an insect AND an amphibian - What do they have in common?
