L.O: To entertain.

Edit and Improve

Use this time to identify any misconceptions from yesterdays writing.

How will the problem be resolved?

Look back at your plan.

Partner 2 tell Partner 1 how you think the problem will be solved.

SWAP!

How will the problem be solved?	• When wolves are asleep come up with a plan • Play a sound (dad's tuba) that scares the wolves • Wolves run outside • Lock them out
---------------------------------	--

Remember:

- Describe emotions (SHOW NOT TELL)
- Short sentences for effect
- Dialogue with action (make it purposeful)
- Figurative language

Snores from the wolves jumped inside I do their ears. "Finally, they're asleep!" whispered Lucy as she peeped through the hole in the wall. "This is our chance we have to do this NOW! Dad have you got your tuba?"

Dad bent down, picking up the tuba confidently with both hands. Pointing towards the tuba, he gave Lucy a thumbs up. Lucy responded by giving her dad an encouraging grin.

Looking through the hole one last time, Dad approached the opening of the walls. Followed by Mum. Then brother. Then Lucy.

With a partner (on a whiteboard)

We do

write the next 2/3 sentences of what could happen next.

Can you include figurative language?

How will the problem be solved?

You do

Write the solution to your problem.

Remember to include:

- Figurative language
- Short sentence for effect
- Dialogue with actions (appropriate dialogue)
