What strategies can we use if we find unfamiliar words that are not in the glossary?

Strategies

- *Look at each part of the word.
- *Look at the prefix/suffix of the word.
Does this tell us anything?
- *Read the full sentence again. Is the word use as a noun, verb or an adjective?
- *Is the word familiar to another word you are familiar with?

As you are reading the text, answer the following questions.

1. Which country does Christian Eriksen play for?
2. Which team was Denmark playing when Christian Eriksen collapsed?
3. What treatment did Christian Eriksen receive during the match?
4. What happens when someone gets a cardiac arrest?
5. What does a defibrillator do?
6. Where can we find public access defibrillators (PADs)?

As you are reading the text, answer the following questions.

1. Which country does Christian Eriksen play for?

Denmark

2. Which team was Denmark playing when Christian Eriksen collapsed?

Finland

3. What treatment did Christian Eriksen receive during the match?

CPR and a machine called a defibrillator

4. What happens when someone gets a cardiac arrest?

Heart suddenly stops pumping blood around the body so, brain stops getting oxygen and this causes someone to fall unconscious and stop breathing.

5. What does a defibrillator do?

It gives a small shock the heart to help it return back into a normal rhythm.

6. Where can we find public access defibrillators (PADs)?

They are available to public at shopping centres, sports stadiums and train stations across the UK.
