Today we are going to finalise our decisions for subheadings and continue to write the first draft of our biographies.

I
do

I will create headings for our first two sections based on what each of these sections do.

The first section needs to introduce who our biography is about and outline what we can expect to read. This does not need to be more than a paragraph.

The second sections needs to tell us a little about the brothers BEFORE they were pioneers.

Teacher:
Introduction and Early Life.

Partner work

On your whiteboards, come up with the subheadings for the next two sections.

The first will need to tell us about the Brothers jobs.

The second will need to tell us about their early days inventing the plane.

Teacher:

Possible answers: Working life and First Attempts at Invention. The children may have had better ideas!

We
do

Decide on the two final subheadings.

These should cover the planes flight and the end of the Wright brothers careers.

You
do

Once we have discussed these subheadings continue drafting your biographies using our notes.

If you would like to challenge yourself, use some of the extra information provided in the other texts we have explored.

Start thinking about how you are going to present your biography with each of your subheadings, quotes from the brothers and images, as next week we are going to be publishing our final draft for display.
