

05.11.20

L.O: To divide by 10.

- 1) Find the missing number.
 $7,321 - \boxed{} = 3,117$
- 2) Subtract 405 from 6,879
- 3) Round 83,741 to the nearest 10,000
- 4) How many minutes are in 5 hours?

1) Find the missing number.

$$7,321 - \boxed{} = 3,117$$

4,204

2) Subtract 405 from 6,879

6,474

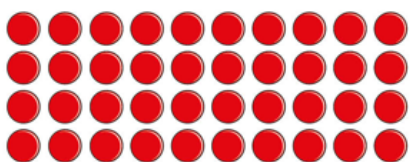

3) Round 83,741 to the nearest 10,000

80,000

4) How many minutes are in 5 hours?

300 minutes

Complete the calculation shown by the array.

$$40 \div 10 = \boxed{}$$

I do

I do We do

Complete the calculations.

a) $30 \div 10 = \boxed{}$

d) $80 \div 10 = \boxed{}$

b) $60 \div 10 = \boxed{}$

e) $100 \div 10 = \boxed{}$

c) $90 \div 10 = \boxed{}$

f) $\boxed{} = 120 \div 10$

4

b) Make 230 using base 10

Complete the sentences.

230 = hundreds + tens

hundreds = tens

There are tens altogether.

$230 \div 10 =$

We do

Fill in the missing numbers.

a) $360 \div 10 = \boxed{}$

d) $\boxed{} \div 10 = 41$

b) $630 \div 10 = \boxed{}$

e) $\boxed{} = 75 \text{ tens} \div 10$

c) $10 \times \boxed{} = 520$

f) $86 = \boxed{} \text{ tens} \div 10$

You do

A pool is 10 m long. . —

Annie and Mo are swimming lengths of the pool.

Annie swims 85 lengths. —

Annie and Mo swim 1,240 m in total.

How many lengths does Mo swim?

Pool 10m We do
Annie 85 lengths
850 m

124

Complete 'you do' tasks.

Let's re-group.
