Can you count in 2's to 20?

Can you count in 10's to 100?

Challenge: Can you write the number patterns

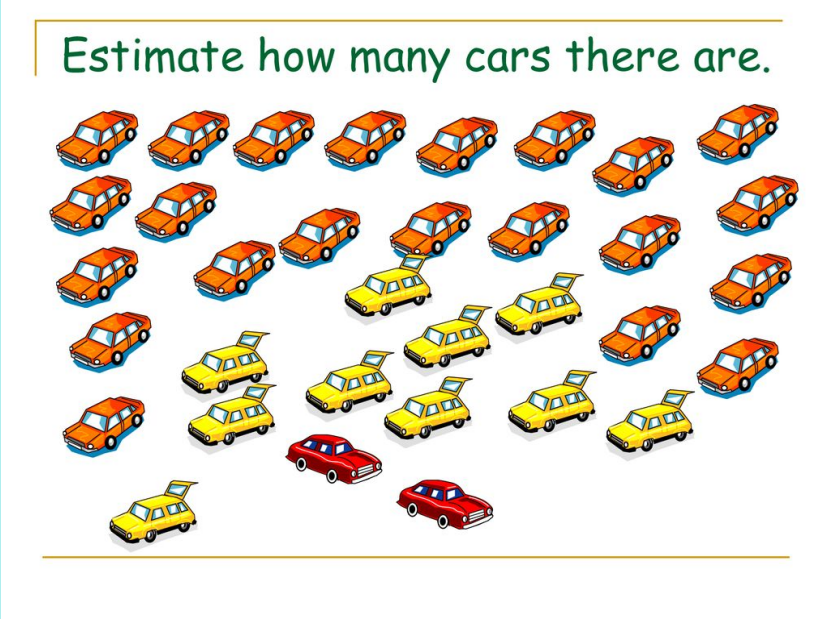

Today we are learning to estimate and say which has more?

Have a quick look at the beads on the string.

Can you estimate how many there are?

Now count and check? Was your guess close?

Are there more cars or more beads on the string?

Can you find 2 plates? Can you find a box of small objects? pasta shells? beads? buttons?

Grab an amount of objects and put them on both plates. Estimate how many on each plate.

Repeat for other amounts.
