

Salvador Dali

Learning Objective:

To create a surreal piece of art that shows movement

Success Criteria:

- To create surrealistic/dreamlike piece of art
- To use “distortion, metamorphosis and transformations” in my art
- To create the illusion of movement in my art
- **To assess my own and others pieces of art**

Recap - What is Surrealism?

Surrealism is a 20th century art movement that focused on the exploration of the imagery.

Surrealism is “having the disorienting, hallucinatory quality of a dream – unreality - oddness”.

Yet not fantasy!

Dali – An example of Surrealism.
What can you see in the painting?

Surrealism VS Fantasy

Surrealism: is a world where real items or details are pulled together to create a dream state or image.

Fantasy: is another world where we recognize elements of our lives in a very different and made up settings or images.

Fairy in Fantasy

Fairy in your kitchen... Surreal

Recap - Salvador Dali and movement

- Surrealist artist like Dali were known for distorting images. This can also give the effect of movement
- In this picture he used 'distortion, metamorphosis and transformations' to enhance the illusion of movement

What can you see in the painting – images, movement, illusion?

Recap –Space and Perspective

Space is the distance or area around things;
Perspective represents a volume or space, or three dimensional view of objects

Perspective can make objects look like they are close up or farther away?

Where can you see movement or 'action' within the painting?

Distortion, Metamorphosis and Transformations.

What is happening in this picture?

How to start: Background – using a 'WASH'
