LO: To add mentally

Explain what I have done to find the answer:

264 + 70 =

264 + 40 = 304

304 + 30 = 334

I DO:

Write an addition number sentence that connects a, b and 132.

a + b = 132

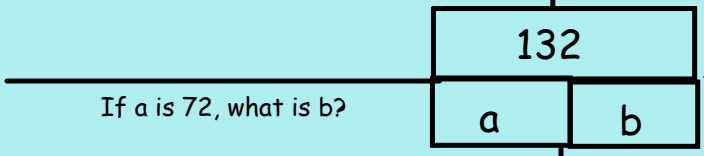

fill in the missing information

92 + 40 = 132

40 + 92 = 132

132 - 92 = 40

132 - 40 = 92

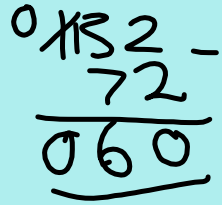

If a is 72, what is b?

72 + b = 132

132 - 72

B is 60

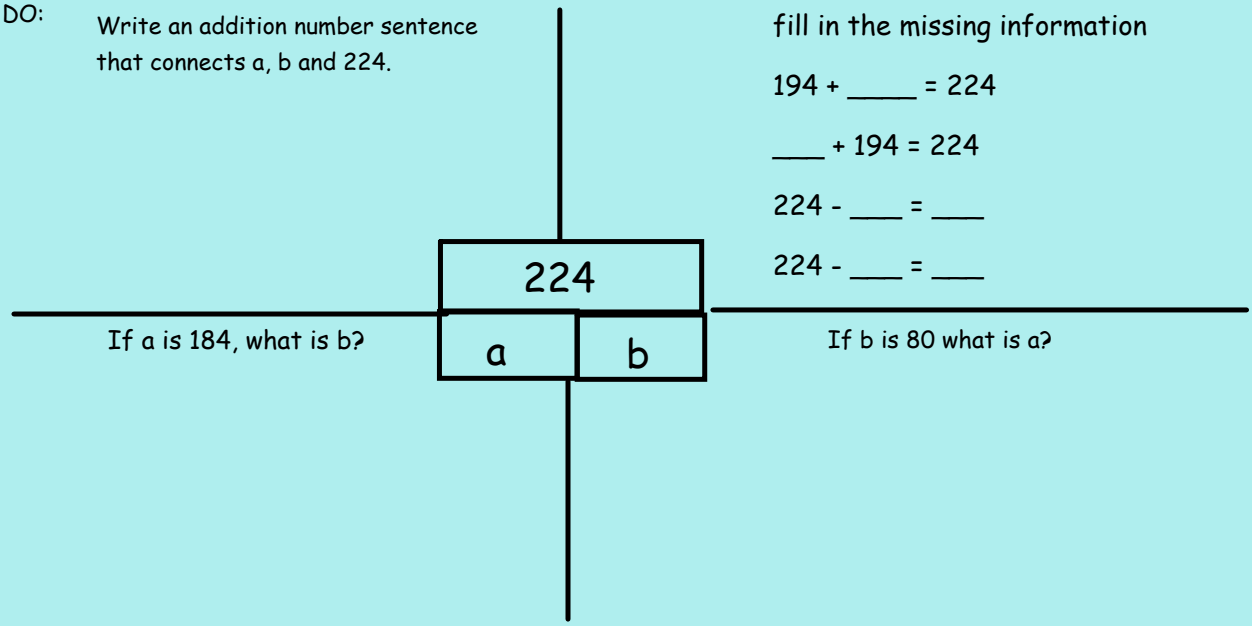

If b is 40 what is a?

a + 40 = 132

a is 92.

YOU DO:

Write an addition number sentence that connects a, b and 224.

If a is 184, what is b?

fill in the missing information

194 + _____ = 224

___ + 194 = 224

224 - ___ = ___

224 - ___ = ___

If b is 80 what is a?

Challenge:

The answer is 323 kites

what could the question be?
