Starter: Use an array to find the answer:

$$8 \times 3 =$$

14.04.21

LO: To multiply

Recap!

What method do we use to multiply 2 digit numbers by 1 digit numbers?

I DO:

16 x 4 =

10 6

(1)

X	10	6
4	40	24

(2) (3) (4)

40 + 24 = 64

(5)

Language focus:

Sixteen multiplied by four is equal to Sixty four.

WE DO:

21 x 3 = 63

20 1

X	20	1
3	60	3

60+3=63

WE DO:

Language focus:

Three multiplied by twenty one is equal to Sixty three.

YOU DO:

1. 18 x 4 =
2. 23 x 2 =
3. 13 x 6 =
4. 34 x 3 =
5. 17 x 5 =

Write the language focus for each question.

YOU DO:

1. 18 x 4 = 72
2. 23 x 2 = 46
3. 13 x 6 = 78
4. 34 x 3 = 102
5. 17 x 5 = 85

Write the language focus for each question.

Challenge:

Use your knowledge of your 4 times table to calculate the missing numbers in this problem:
