LO: To use inference skills to answer questions about a text

Recap: What text were we reading?

Brief outline of the text:

An information text from the national geographic about the famous pharaoh King Tutankhamun. This text explains what archaeologists found out about the life of Tut and his surprising death

Glossary:

Chariots - horse drawn carage

Coronation - when someone is crowned ruler.

Conflict - argument

Crypt - underground room used as a burial place

Decade - 10 year

immune system - protects you against diseases.

Insense - burnt to a sweet smell

Mummified -preserve a body by embalming and wrapping it in cloth

Pharaoh - ruler in ancient Egypt

Ritual - something done as a religious rite.

Tomb - an underground room for burying the dead.

Read in pairs:

Questions:

1. Why do you think bodies were mummified?
2. What do you think it would have been like to be king at 8 years old?
3. What is different about the introduction in this text?
4. Why was it likely that he died from an infection in a broken bone?
