LO: To complete a slow write.

What is a sentence?

A sentence is when we express a complete thought.

'I went to the shops.' is a sentence, because it is a full phrase that makes sense on it's own.

'I went to the' is NOT a sentence, because it doesn't make sense on its own. It is not a complete thought.

A sentence is made up of:

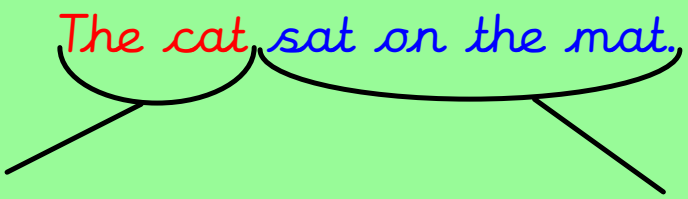

'the naming part'

and

"the telling part'

Another word for 'the naming part' is 'a noun'

For example:

'The naming part' ('Noun')

'The telling part'

'The naming part' tells us what or who the sentence is about.

'The telling part' tells us what happens

Which part is 'the naming part', or 'the noun' of the sentence below?

Jack went up the hill to get some water from the well.

Which part is 'the naming part', or 'the noun' of the sentence below?

I ran.

Which part is 'the telling part' of the sentence below?

Alisia went to the shop with Joshua.

Today, we are going to complete a 'slow write'. This is where we write a paragraph and each sentence has a different feature in it.

This is a way of recapping what we have learned so far this year.

Sentence one:

This sentence must include an expanded noun phrase.

Sentence two:

This sentence must include an adverb.

Sentence three:

This sentence must include a fronted adverbial.

Sentence four:

This sentence must include a preposition

Sentence five:

This sentence must include a subordinating conjunction.

Sentence six:

This sentence must include inverted commas.
