Today we are going to read the sentences from our story.

I have started to look for tricky words (like the, she, he, and, with).
Can you find anymore? Can you find the story language?

Once upon a time Spiderman was walking in the forest.
He heard a shout from a tower in the distance.
The giant roared and spiderman made a massive web cage.
Spiderman slid down the princess' hair and made a web slide for her to come down the tower.
He climbed up the tower using his web and climbing powers.
He found a princess with very long hair, who had been trappe by a giant.

Can you read your story and use colours to spot the story language and tricky words?
