

How many red counters?
How many yellow counters?

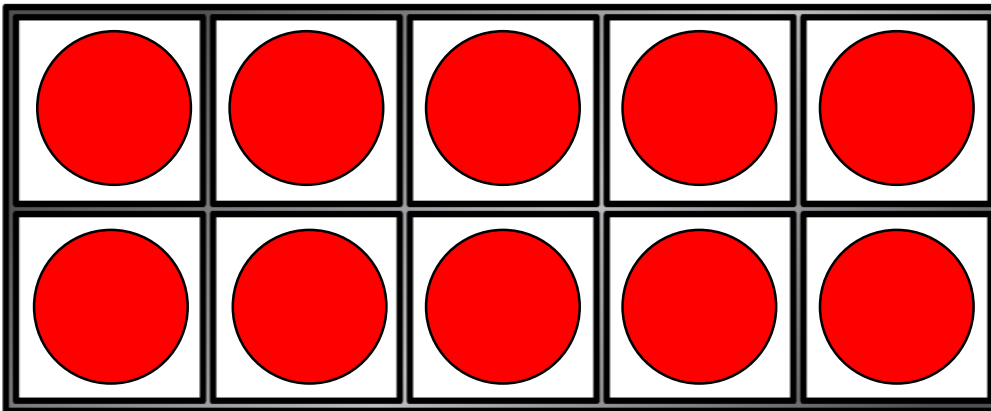

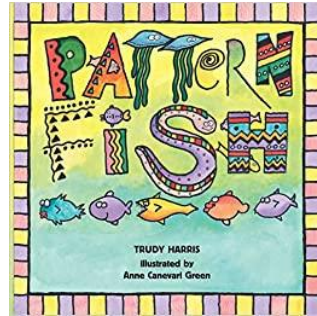

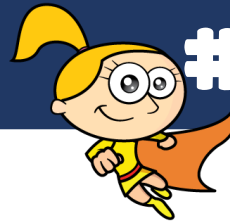

How many altogether?

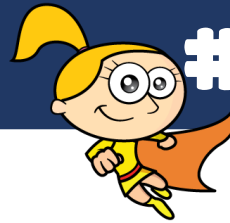

How many red counters?

How many yellow counters?

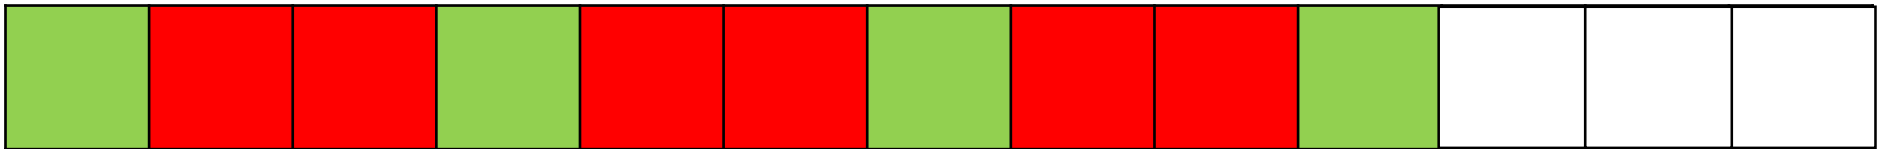

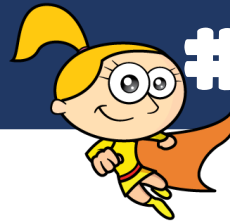

Here is a book all about patterns.
The fish in this book have lots of
patterns of dots and stripes.

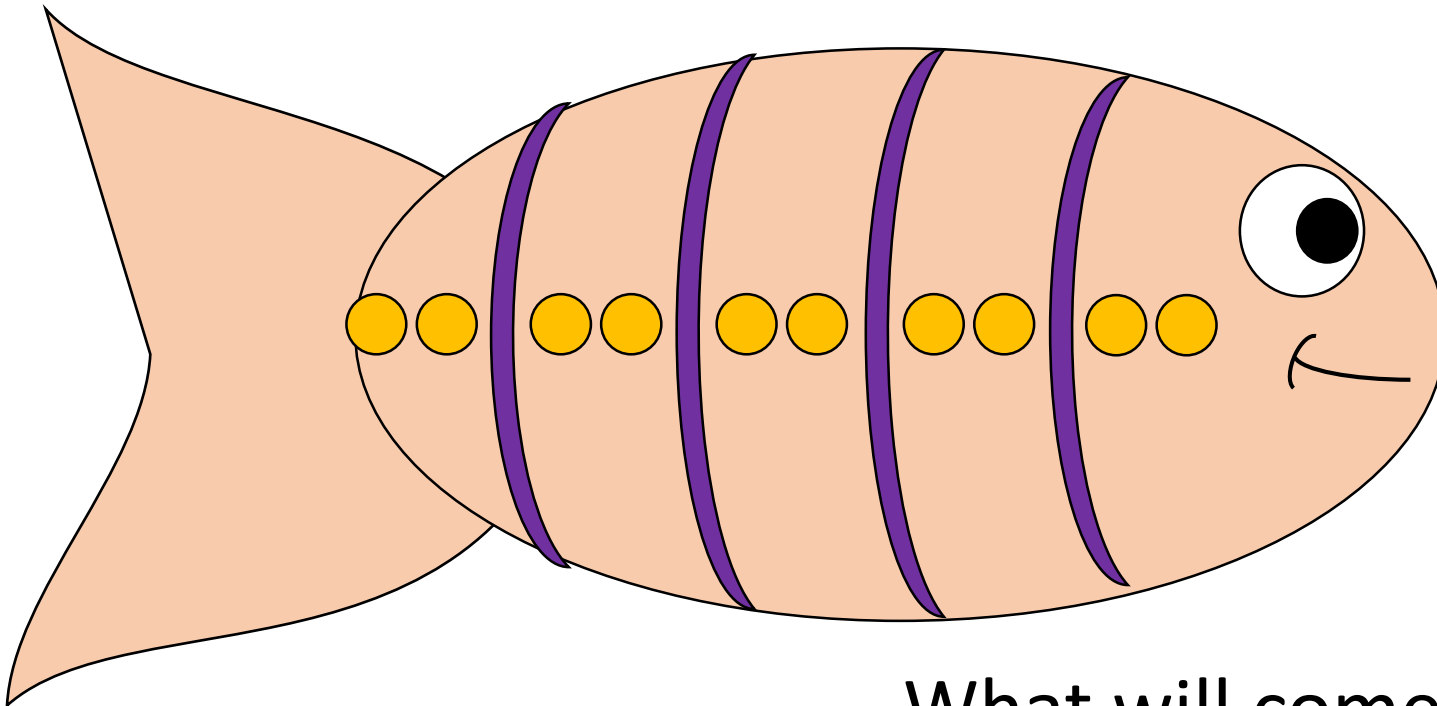

What do you notice
about this pattern?

What will come next?

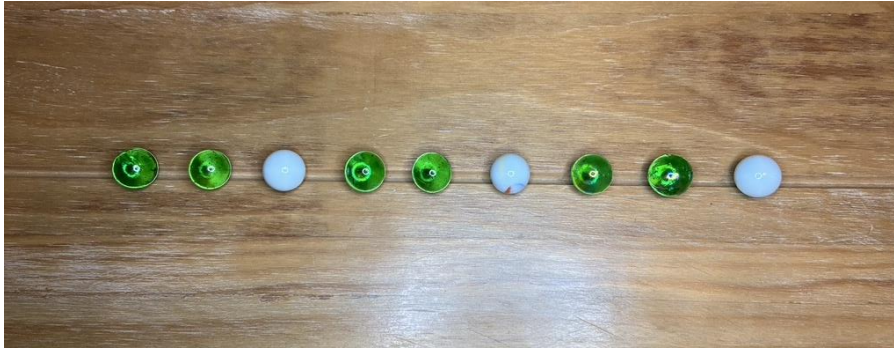

What do you notice
about this pattern?

What will come next?

Here are some patterns I have made
with objects I found at home.

Can you create your
own pattern with
objects from
around the
classroom
