

Key Question: To make a moving picture

How do you think we could make a moving picture?

Show the children some examples of pictures with moving parts.

What do you notice?

What is the same/different about the cards?

Lets read:

This term we are going to make a card for someone special with a moving part. We are going to learn how to make a lever. A lever is what makes a picture move up and down. We are also going to make a slider. A slider is what makes a picture go side to side.

1. What are we going to make?
2. What is a lever?
3. What is a slider?

LO: To make a lever.

Lets read the instructions to learn how to make a lever

1. Cut around the dolphin template and decorate it.

2. Now stick the dolphin on top of the piece of card.

3. Now cut a small line in the piece of card for the lever to go through. Use the holes to help you.

4. Put the lever inside the card.
5. Make some waves to hide the lever.
6. Finally decorate your card.
