

L.O. I can explain the difference between
thing I want and need

What is the difference between things I want
and need?

Share ideas

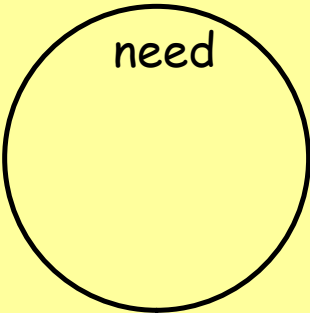

When I walked home from school today, I felt cold. I need a new coat for the winter.

When I went to play at my friend's house, they had a really cool toy car. I need one like that to play with too!

Do you think both these things are 'needed'? What is the difference between what we want and what we need?

I do

We do

want

need

You do

shoes

coat

clothes

toy car

umbrella

crisps

fruit

vegetables

books

fidget spinner

magazine

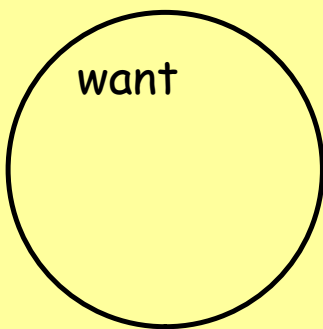

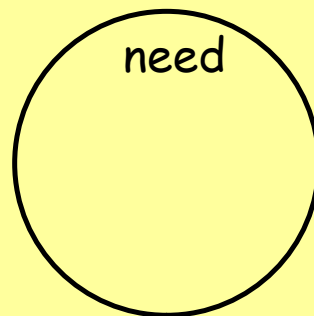

pens

You are now going to work in small groups to sort items into two groups -

those we 'want' and those we 'need'.

They can be sorted however you choose, but try to make sure everyone in your group agrees with where each item is put.

Can you finish this sentence?

Tell your partner

**The difference between things I want and things I need
is....**
