

Starter

How many doubles can you make?

For example

$$1+1=2$$

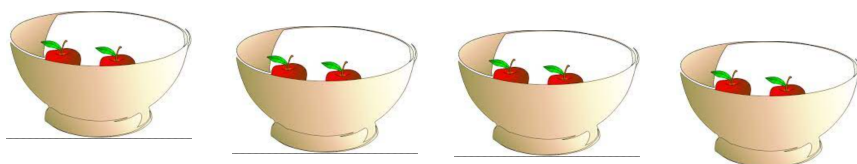

Today we are going to learn about equal groups.

First lets learn about the words equal and unequal, what do you think they mean?

Equal means when the groups are the same.

Unequal means when they are not the same.

I do: Are the groups equal or unequal?

The groups _____ because

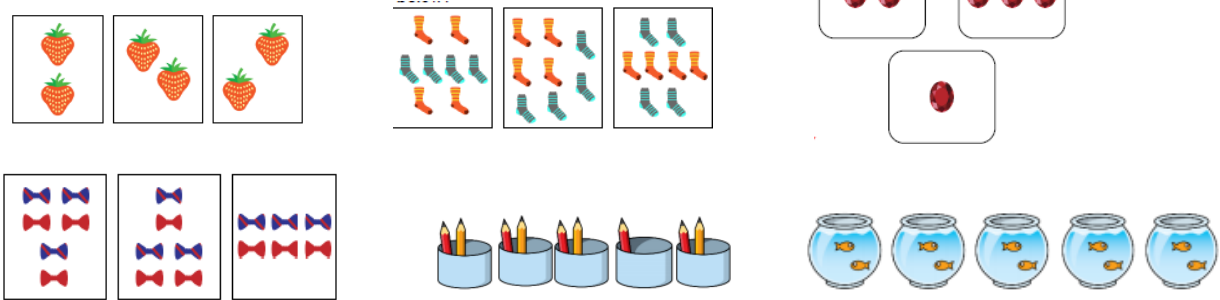

_____.

We do: Are the groups equal or unequal?

The groups are _____ because _____.

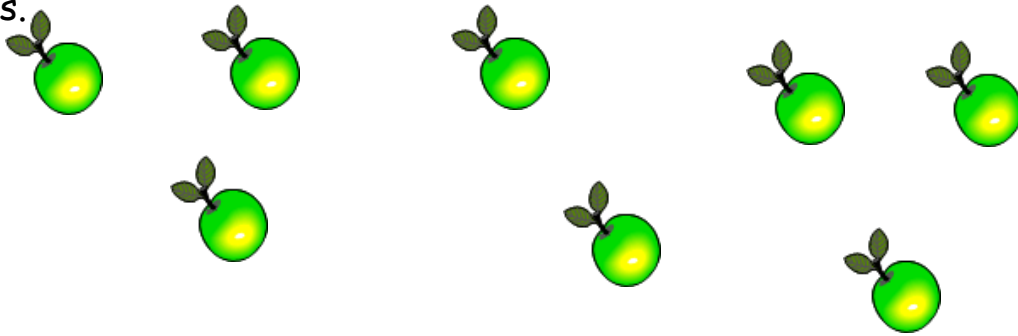

You do: Copy these pictures using objects and write the sentences on your whiteboard.

The groups are _____ because _____.

I do:

Ben has 8 apples. He wants to put them into equal groups of 2. Can he do it? First can you some objects to represent the apples.

We do: Tom has 9 bananas. He wants to put them into equal groups of 2. Can he do it? First can you some objects to represent the bananas.
