Wider Reading

Listen to these sentences, then read them to your partner.

Waterproof is something that keeps water out. A plastic raincoat is an example of something that is waterproof.

Absorb is to take in or soak up. A paper towel will absorb the spilled milk.

Starter

What do these words mean?

Absorb

Waterproof

Last week we explored the materials to find out which would make a good umbrella.

Can you tell your partner what we did?

Lets re cap what we did:

Step 1 - Put teddy in the bowl

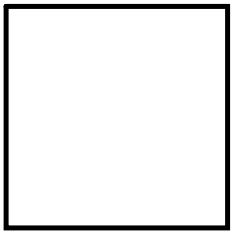

Step 2 - Cover it with a material

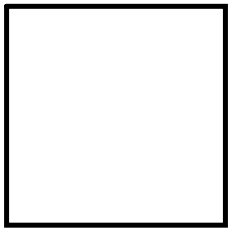

Step 3 - Use a pipette to drop water onto the material.

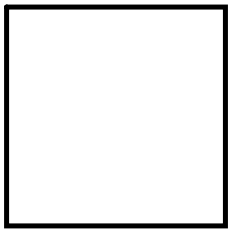

Repeat with each material

First we put the teddy in the bowl.

Then we put the material on top.

Then we dripped water on the material with a pipette.

Can you write sentences about our investigation and draw pictures to go with them.

The best material for an umbrella is _____ because _____.
