Science

Can you name any common garden plants?

Look back in your book to help you.

Write a list in your book.

.

In Science today we are going to label and describe the main parts of a plant. Can you name any of the pictures below?

Great Gardens

Gardens are places where people grow plants.

Some people grow plants because they are nice to look at.

Some people use their gardens for growing things to eat.

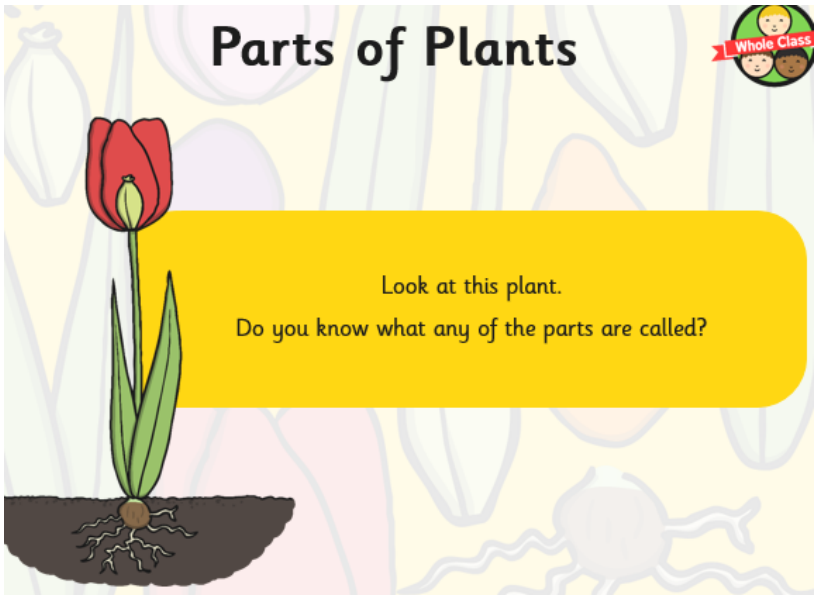

You can plant your bean plant in a garden when you take it home. Eventually it will grow tasty beans!

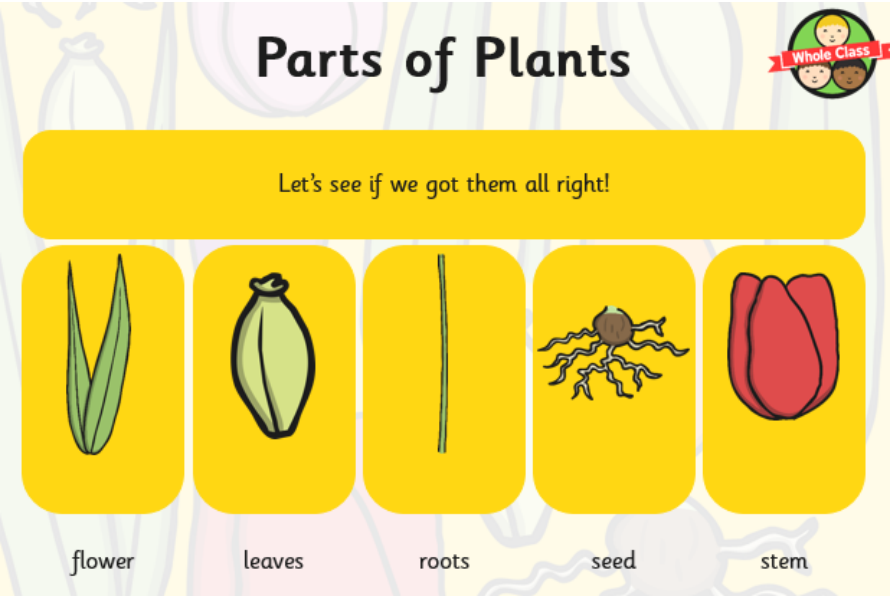

You might have a garden where you live.

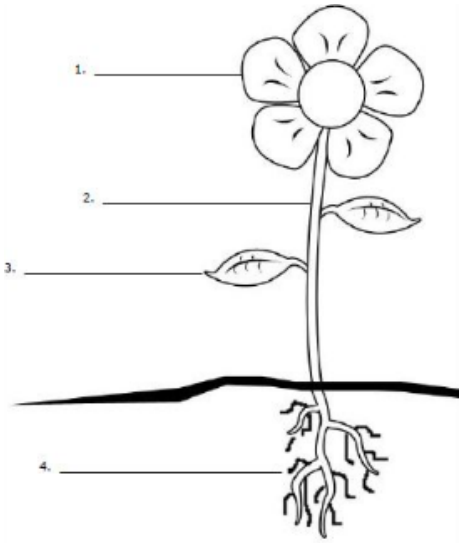

A public park is a kind of garden for lots of people to enjoy.

Parts of Plants
Whole Class
Look at this plant.
Do you know what any of the parts are called?

Parts of Plants
Whole Class
Let's see if we got them all right!
flower
leaves
roots
seed
stem

We do:

leaves

petal

stem

roots

flower

Lets Read:

Leaves catch sunlight to make energy. The stem holds up the plant. The flower attracts insects and birds. The roots take in water and nutrients from the soil. Seeds grow into new plants when they fall into the soil.

The leaves.....

The stem

The flower....

The roots ....

The seeds...
