Can you write the repeated addition for these pictures?

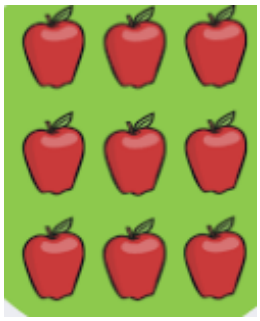

Can you remember what an equal group is?

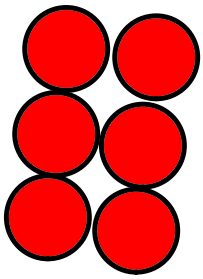

column

row

An array is when we line our equal groups up in rows and columns.

I do: Make an array using 6 counters.

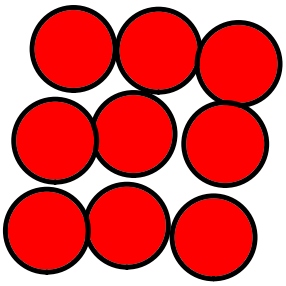

$2+2+2=6$

$3+3=6$

I do: Make an array using 9 counters.

3 + 3 + 3 = 9

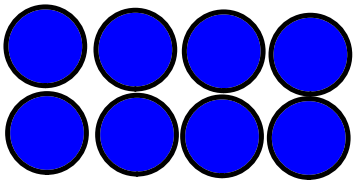

You do: Make an array and write the number sentences to match.

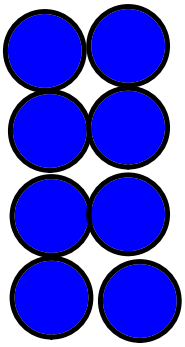

1. Use 10 counters to make an array.
2. Use 12 counters to make an array.
3. Use 6 counters to make an array.
4. Use 9 counters to make an array.
5. Use 15 counters to make an array.
6. Use 8 counters to make an array.

Challenge

Tom and Ben are making an array with 8 counters. Are they right?

Ben

Tom
