__ + 3= 6

__ +

LO: To describe an array.

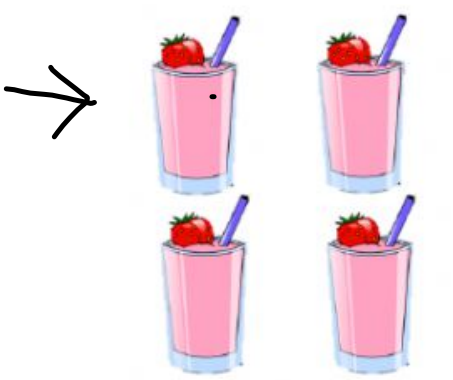

column

row

An array is when we line our equal groups up in rows and columns.

I do

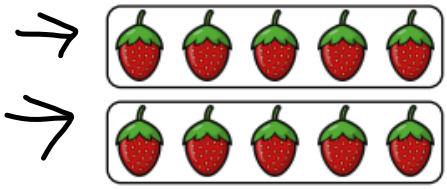

There are 2 in each row.

There are 2 rows.

2 + 2 = 4

There are 4 altogether.

We do

There are __ in each row.

There are __ rows.

__ + ___ = ___

There are _____ altogether.

There are __ in each row.

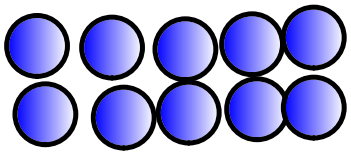

There are __ rows.

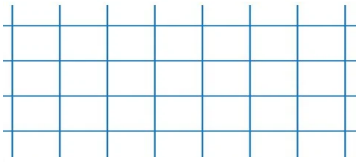

__ + ___ = ___

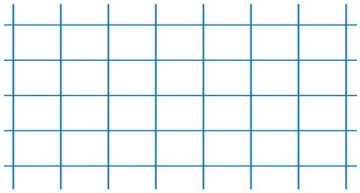

There are _____ altogether.

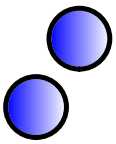

We do: There are 4 ways to make an array with 10 counters. Do you agree?

I _____ because_____

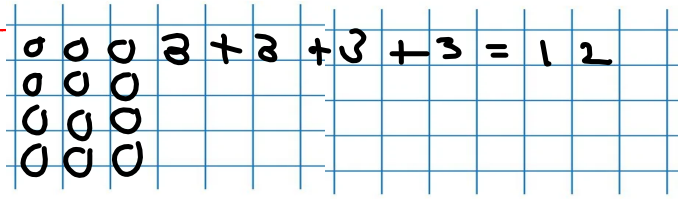

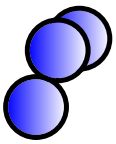

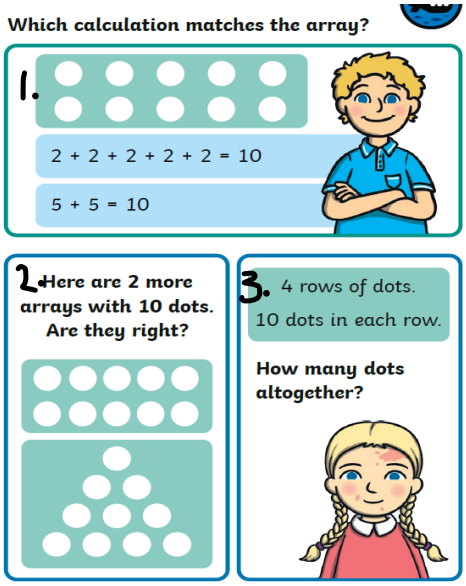

You do: There are 4 ways to make an array with 12 counters. Do you agree?

I _____ because_____

1. The number sentence that matches the array is_____
