L.O. I can explain choices I have abut spending money and why it is important to keep track of what i spend.

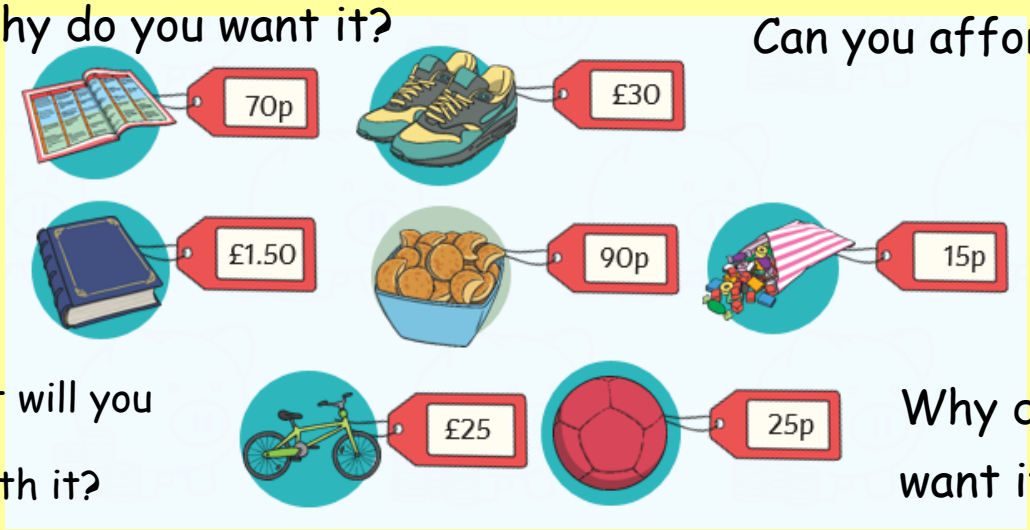

What choices do we have about spending money?

How do we keep track of what we spend?

You have £2 what would you like to buy?

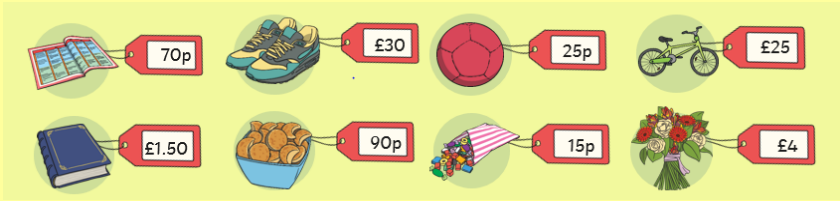

Why do you want it?

Can you afford it?

What will you do with it?

Why do you want it?

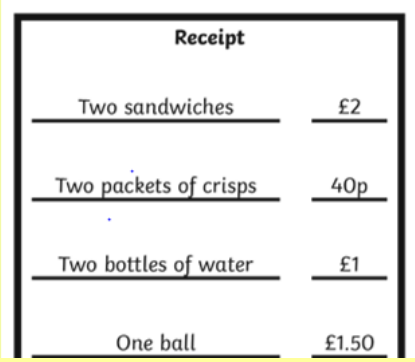

What would you choose if you were:
Going on a long train journey? Going to play in the park? Going to your friend's house? Buying a present for your auntie's new house?

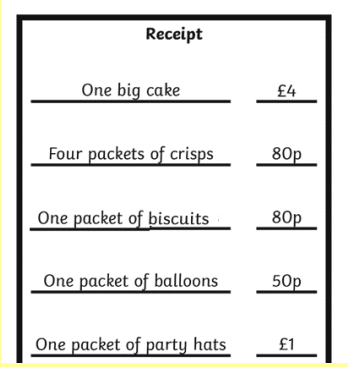

What we are doing might also influence what we spend our money on.

Can you afford what you want right away? If you can not, what can you do?

The things we do, such as going to the park, having a birthday party or going on holiday, influence what we spend our money on.

These children each get £2 pocket money a week. Can they afford what they want? they can't, what could they do?

We are going to play a game to work out how we can keep track of what we spend.
Look at your card but don't show anyone else what is on it.

We are going to take it in turns to say what we bought and how much it cost. You can use the sentence starter: **'I went shopping and bought…..**
for ….'.
The next person in the circle must repeat what the previous speaker(s) bought and add their item to that sentence.
They can say: **',….went shopping and bought …. for…., I went shopping and I bough**
…. for……'.
You need to repeat what everyone who has spoken before you has bought. How far around the circle can we get, remembering what everyone has bought.

It is sometimes difficult to remember what we have spent on each item.
So, we need another way to keep track.
