LO - To match pictures to the correct water source.

Starter - Can you remember the water sources that we learnt about in our last lesson.

Write these on your whiteboard.

Water is found in many different places.

	This is a [redacted] It is a small body of water
	**This is a** [redacted] **They** are man-made narrow channels of water.
	This is a [redacted] **It** is a body of water that is surrounded by land.
	This is the [redacted] It is a large area of salt water between countries.

Today we are going to look at 2 other water sources.

Use the information on your sheet to find out what they are.

	This is a stream. It is a small body of water
	**This is a canal. They** are man-made narrow channels of water.
	This is a lake. **It** is a body of water that is surrounded by land.
	This is the sea. It is a large area of salt water between countries.
	This is a reservoirs. Reservoirs are used to store water for various uses like drinking.
	This is a beck. It is a small, shallow stream.

Let's look at some of these different water sources on a map.

https://www.google.co.uk/intl/en_uk/earth/

Ogden Reservoir

Harden Beck

Horton Nature Reserve

Saltaire Canal

I do - Match the picture to the correct water source.

Lake	Sea	Reservoir
Stream	Canal	Beck

We do - Match the picture to the correct water source.

Lake	Sea	Reservoir
Stream	Canal	Beck

You do - Cut out the picture and match to the correct water source.

Lake	Sea	Reservoir
Stream	Canal	Beck

What is a beck?

What is a reservoir?

What is river?
