We are going to make lots of different lines in 2B pencils. Using different lines will make your drawings even better. The B on the pencil means black. The more Bs the pencil has, the blacker the line it will make. The H stands for hard.

Can you draw the following lines?

- A short straight line.
- A short, straight dark line next to it.
- A short, straight, lighter line.
- A long, straight line.
- A long, straight, darker line next to it.
- A long straight, lighter line.

Repeat with wavy, zigzags, broken lines etc

Dots and dashes

These are really short lines.

- Draw light dots, dark dots, dots close together and dots far apart.

Repeat with dashes.

Now try making these patterns using dots and dashes.
