LO - To add

Starter

Put the numbers in order.

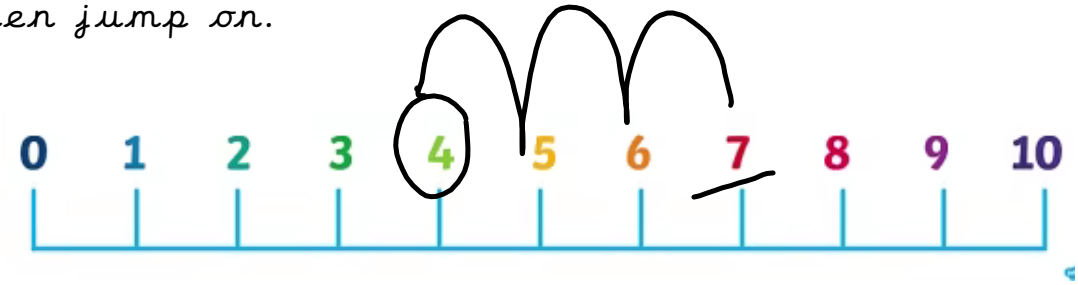

5, 2, 4 2 4 5

9, 1, 7 1 7 9

3, 6, 1 1 3 6

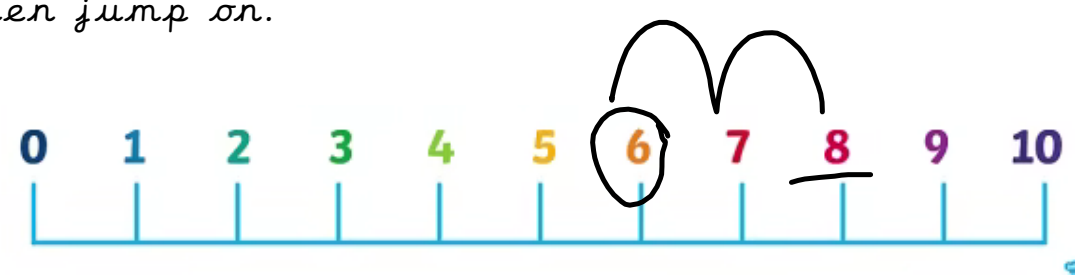

$4 + 3 = 7$

Find the biggest number on your number line then jump on.

$6 + 2 = 8$

Find the biggest number on your number line then jump on.

$$1 + 7 =$$

Find the biggest number on your number line then jump on.

Write your answer on the whiteboard.

$2 + 2 = 4$

Write your answer on the whiteboard.

$$6 + 4 = 10$$

Write your answer on the whiteboard.

$2 + 8 = 10$

Using these numbers how many different totals can you make?
Use your number line to help you.

2 3 7 4 5

2 + 3 = 5 ✓

3 + 7 = 10 ✗

Mo has used the number track to complete 4 + 2
He thinks the total is 5

1	2	3	4	5	6	7	8

What mistake has he made?
How could Mo use the number track to find the correct answer?
