Key Question:To make a moving card.

What did we do last lesson?

Lets read:

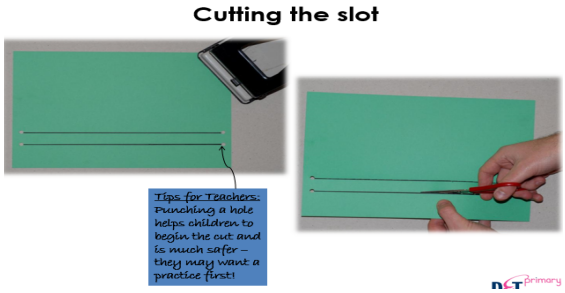

This term we are going to make a card for someone special with a moving part. We are going to learn how to make a lever. A lever is what makes a picture move up and down. We are also going to make a slider. A slider is what makes a picture go side to side.

LO: To make a slider.

What do you think a slider is?

Lets read the instructions to learn how to make a slider.

1. First cut along the lines from the punched holes.

2. Cut out and decorate the car template.

3. Stick the car on top of the strip of card.

4. Put the card into the two cut out lines.

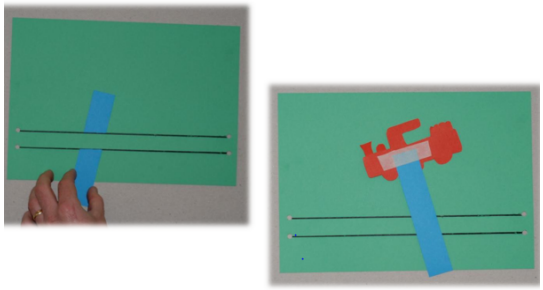

4. Add a covering strip over the cut out card.

5. Finally decorate the background,

5. Stick a piece of paper over the
