Maths starter: Can you remember what doubling means?

How many different doubles can you think of?

1 + 1 = 2

4 + 4 = 8

9 + 9 = 18

10 + 10 = 20

6 + 6 = 12

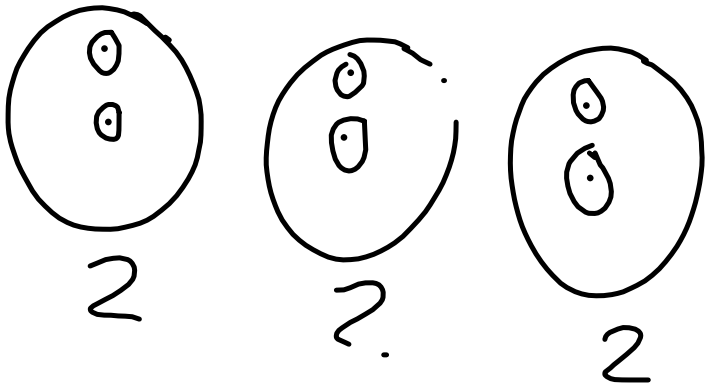

8 + 8 = 16

Today we are going to learn how to share.

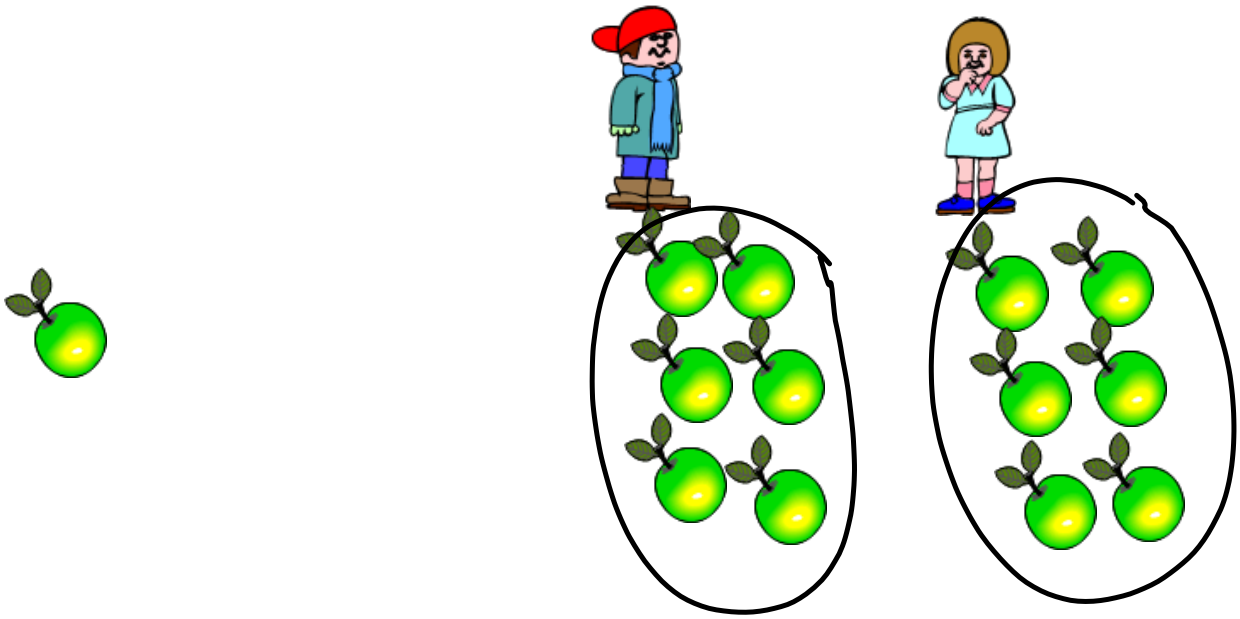

What does the word sharing mean?

.

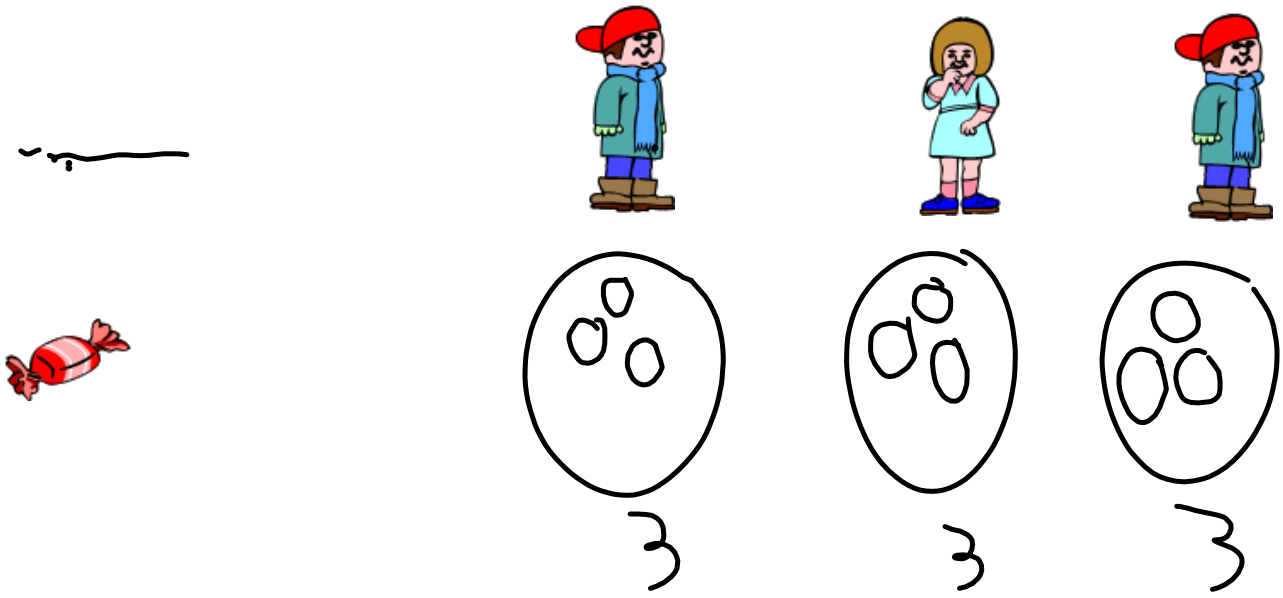

I do: Miss Hopkins has 6 biscuits to share out between her 3 friends. How many will they each get?

I do: Ben has 12 apples to share out between his 2 friends. How many will they each get?

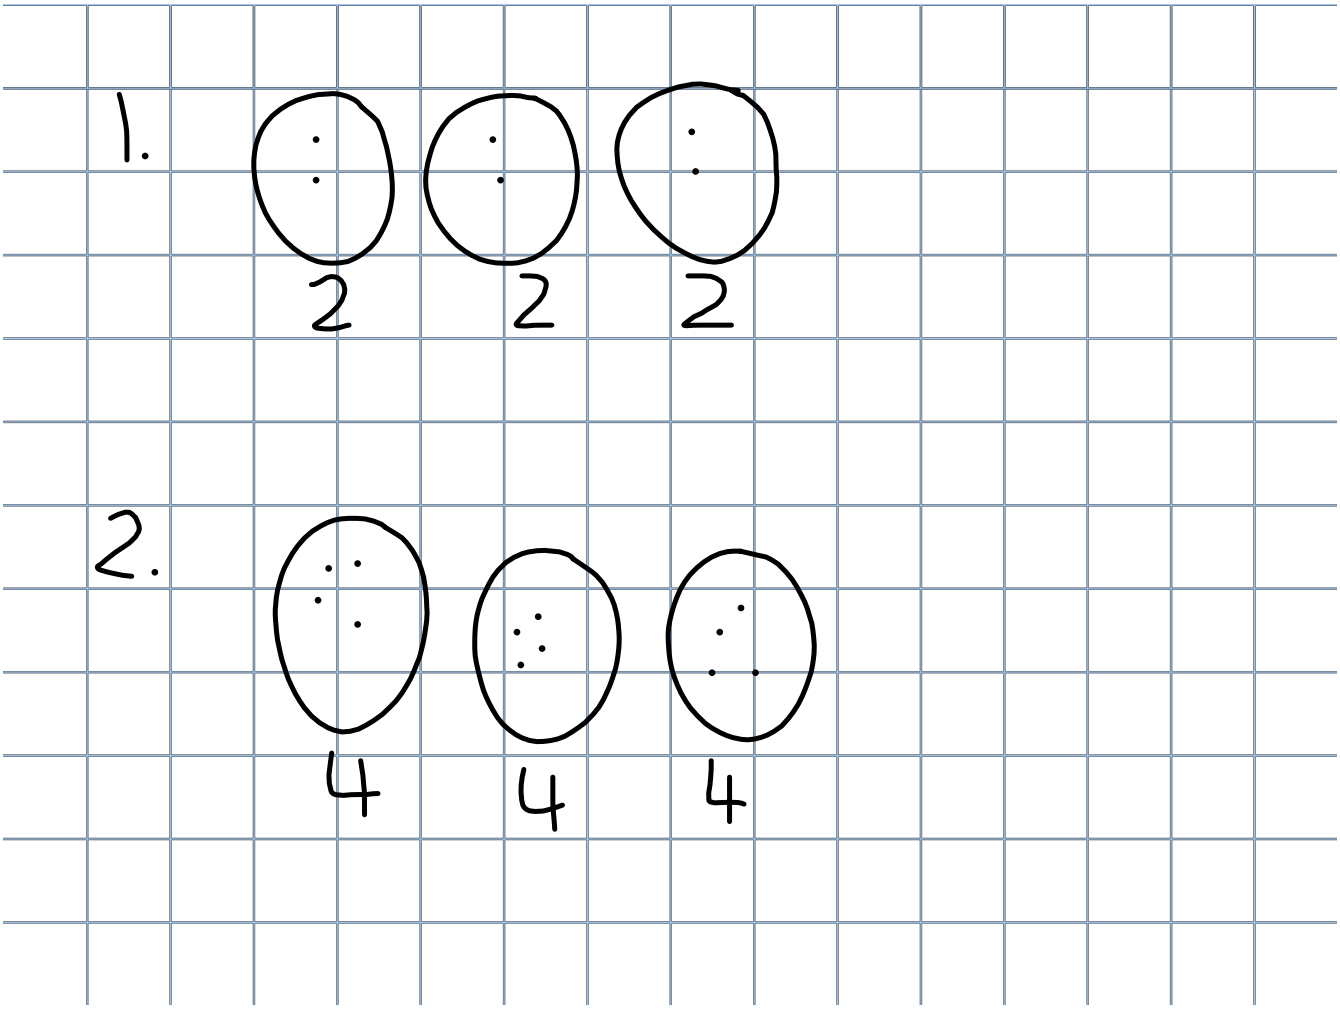

We do: Sam has 9 sweets to share out between her 3 friends. How many will they each get?

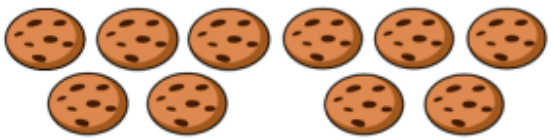

You do: Read the question carefully and answer them in your books.

1. Tom has 6 buns to share out between his 3 friends. How many buns will they each get?	2. Bill has 12 stickers to share out between his 3 friends. How many will stickers will they each get?	3. Bert has 10 bones to share between his 5 dogs. How many bones do they get each?
