Maths starter: Lets count in 2s.

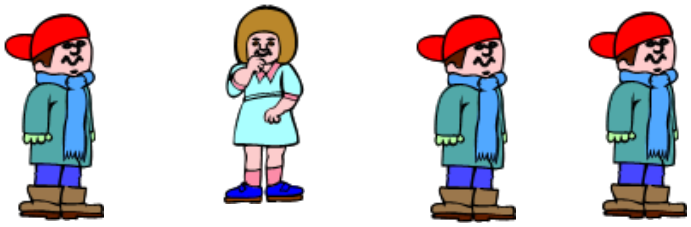

Today we are going to continue to share.

Can you remember what that means?

.

I do: Jim has 12 apples to share out between his 4 friends. How many will they each get?

I do: (draw)

Bill has 9 stickers to share out between his 3 friends. How many will they each get?

We do: (draw)

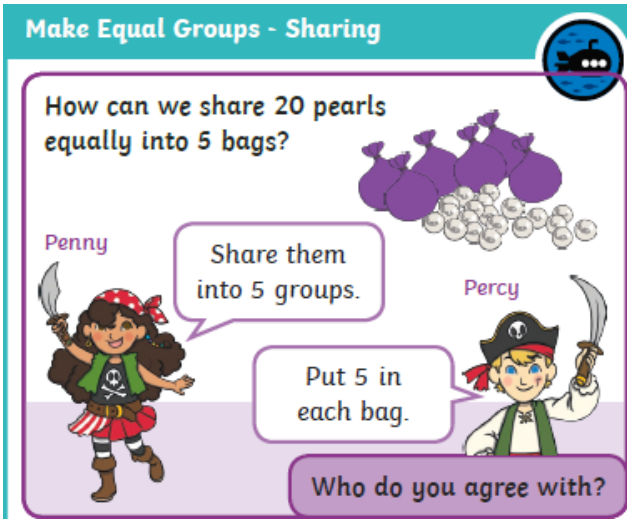

Max has 6 balls to share out between his 2 friends. How many will they each get?

We do: (draw)

Jess has 15 pens to share out between her 5 pots. How many will they each get?

You do: Read the question carefully., draw the problem then work out the answer.

1. Pip has 4 pens to share out between her 2 friends. How many will they each get?	2. Ted has 15 books. He shares them out between his 3 friends. How many books do they each get?	3. Mick has 10 apples to share out between 5 baskets. How many apples will be in each basket?
